NOW THEREFORE, in consideration of the mutual promises and covenants made herein and for other good and valuable consideration, the Parties agree as follows:

1. Definitions.

A. "Association" means an organization, corporate, or otherwise, with or without capital stock, formed for a common purpose.

B. "Contract Grower" means a person or entity to the extent that person or entity enters into a Contract Grower Agreement with the Processor for the care and feeding of swine owned by Processor in the State of Iowa.

C. "Contract Grower Agreement" means an agreement between the Processor and a Contract Grower for the care and feeding of swine owned by the Processor in the State of Iowa.

D. "Contract Input" means a commodity, an organic or synthetic substance, a compound, or a service that is used by a Contract Grower to produce swine under a Contract Grower Agreement.

E. "Prospective Contract Grower" means a person or entity in active contact with the Processor with respect to the establishment of a Contract Grower Agreement.

2. Contract Grower Rights.

Processor hereby acknowledges that its respective Contract Growers and its Prospective Contract Growers have the following rights (hereinafter "Contract Grower Rights"):

A. *Right to Join Association.* The right of a Contract Grower or Prospective Contract Grower to join, or to refrain from joining or belonging to, an Association of Contract Growers.

B. *Right to Be a Whistleblower.* The right of a Contract Grower or Prospective Contract Grower to lawfully provide statements or information (including to the United States Secretary of Agriculture or to a law enforcement agency) regarding alleged improper actions or violations of law by the Processor. This right does not include the right to make statements or provide information if such statements or information are determined to be libelous or slanderous.

C. *Right to Use Contract Grower's Lien.* The right of a Contract Grower to file, continue, terminate or enforce a lien under Iowa Code chapters 579A and 579B.

D. *Right to Review Production Contracts.* The right of a Contract Grower or Prospective Contract Grower to utilize protections to review production contracts granted under Iowa Code section 202.3.

E. *Right to Disclose Contractual Terms.* The right of a Contract Grower or Prospective Contract Grower to disclose contractual terms under Iowa Code section 202.3.

3. Enforcement of Iowa Code section 202B.201 by the State.

The State agrees that Iowa Code section 202B.201, as it has existed in the past, as it now exists, or as it may be amended or recodified, shall not be enforced against the Processor by or on behalf of the State for the term of this Agreement as set out in paragraph 8.

4. Obligations of the Processor.

Processor agrees that it will not engage, or permit any employee or agent to engage, in the following in connection with Contract Growers or Prospective Contract Growers:

A. Processor will not impose less favorable terms and conditions in Contract Grower Agreements on the basis of a Contract Grower or Prospective Contract Grower's membership in a Contract Grower Association, or activities in such Association or Associations.

B. Processor will not take actions to coerce, retaliate, or discriminate against any Contract Grower or Prospective Contract Grower because that Contract Grower or Prospective Contract Grower exercises, or attempts to exercise, any Contract Grower Right, including:

1) Any such coercive, retaliatory, or discriminatory actions in connection with the execution, termination, extension, or renewal of an agricultural contract between the Processor and a Contract Grower;

2) Any such coercive, retaliatory, or discriminatory actions in connection with the execution, termination or extension of a Contract Grower Agreement;

3) Any such coercive, retaliatory, or discriminatory actions in connection with the imposition of discriminatory or preferential terms in a Contract

Grower Agreement, or the interpretation of the terms of a Contract Grower Agreement in a discriminatory or preferential manner (the terms may relate to the price paid for a commodity, the quality or the quantity of a commodity demanded, or financing, including investment requirements);

4) Any such coercive, retaliatory, or discriminatory actions in connection with the imposition of a penalty, including the unreasonable denial of a reward (a penalty may be in any form, including, but not limited to, financial penalties and may relate to loans, bonuses, or inducements);

5) Any such coercive, retaliatory, or discriminatory actions in connection with the altering of the quality, quantity, or delivery times of contract inputs provided to the Contract Grower by the Processor as required in the Contract Grower Agreement; however, delivery times may be changed by mutual agreement due to weather and market conditions; and

6) Any such coercive, retaliatory, or discriminatory actions in connection with the use of the performance of any other Contract Grower as a basis for the termination, or cancellation of a Contract Grower Agreement, or to negatively affect the Contract Grower's compensation; provided, however, that nothing in this paragraph shall prohibit the Processor from using a program which rewards Contract Growers with monetary bonuses based on superior performances.

C. Processor will not provide false material factual information to Contract Growers or Prospective Contract Growers regarding the following:

1) Other Contract Growers with whom the Contract Grower or Prospective Contract Grower associates;

2) An Association of Contract Growers;

3) An agricultural organization with which the Contract Grower or Prospective Contract Grower is affiliated; or

4) The Contract Grower Rights.

D. To the extent applicable to the Contract Grower Agreement, Processor will provide to a Contract Grower, upon request, the statistical information and data used to determine payment to the Contract Grower under the Contract Grower Agreement with the Processor.

E. To the extent applicable to the Contract Grower Agreement, Processor will allow

a Contract Grower or a Contract Grower's designated representative, where it is within the Processor's authority, reasonable access to observe, by actual observation at the time of weighing, the weights and measures used to determine the Contract Grower's compensation under a Contract Grower Agreement.

F. Processor will not require a Contract Grower to make capital investments associated with an existing Contract Grower Agreement that are in addition to the investment requirements of the Contract Grower Agreement unless fair and equitable compensation is paid to the Contract Grower by the Processor, in a manner the Contract Grower agrees to in writing. However, Processor can require Contract Growers to make necessary capital improvements at the Contract Growers' expense to meet statutory or regulatory standards and requirements as a condition to continuing their contractual relationship. If the Contract Grower cannot reasonably pay for or secure third-party financing for such improvements and modifications, the Processor will attempt to negotiate mutually agreeable financing, terms and conditions for financing by the Processor, enhanced compensation to the Contract Grower by the Processor, or other contract modifications with the Contract Grower for such mandated improvements or modifications. If the Contract Grower cannot reasonably pay or secure third-party financing for such improvements or modifications, and no mutual agreement is reached with the Processor regarding financing, compensation, or other contract modifications, either Party may declare a force majeure event under the Contract Grower Agreement. Nothing in this paragraph shall affect a Contract Grower's obligation to reasonably maintain its existing facilities or the facilities as they are improved and modified as referenced above. Processor will also comply with 7 U.S.C. § 197a(b) regarding disclosure of additional capital investments.

G. Processor agrees, for purposes of this Agreement only, that Contract Growers or Prospective Contract Growers may form and operate an Association of agricultural product producers pursuant to the Capper-Volstead Act, 7 U.S.C. §§ 291-292, and that such an Association may negotiate with the Processor with respect to the terms of Contract Grower Agreements including, but not limited to, negotiations related to the compensation to be paid pursuant to Contract Grower Agreements. For purposes of this Agreement only, Processor waives any claim or defense that the services and facilities provided by Contract Growers under Contract Grower Agreements are not "agricultural products" pursuant to 7 U.S.C. § 291. To the extent that Contract Growers or Prospective Contract Growers organize such an Association, Processor agrees:

1) Not to retaliate or discriminate against such Contract Growers or Prospective Contract Growers because they have organized such and Association; and

2) To negotiate in good faith with any such Association.

H. Processor agrees that it will not assert, either in its case in chief or as a defense, in a suit arising out of this Agreement, that any of the protections and/or benefits provided by this Agreement are preempted by any existing federal law.

I. Processor will provide the Attorney General ninety (90) days' written notice of the closure of any permanent swine slaughter facility located in the State which it owns, constructs, or acquires after the effective date of this Agreement.

J. Processor will file reports with the Iowa Secretary of State pursuant to Iowa Code section 202B.301 but will not file reports pursuant to Iowa Code section 202B.302.

5. Release.

For, and in consideration of, the actions and promises contained in this Agreement, the adequacy and sufficiency of which consideration is hereby acknowledged, the State hereby releases, remises, acquits, and forever discharges the Processor, their respective present and future subsidiaries and/or affiliated companies and the directors, officers, employees, attorneys, agents and owners of each such entity from and against any and all liability or responsibility whatsoever, of any and every kind and nature for any and all damages or losses or other claims, including injunctive or declaratory relief, or fines or penalties, based upon any and all past, present or future claims, demands, or causes of action, including, but not limited to, causes of action sounding in tort, resulting or to result from, or on account of, or arising out of or relating to any alleged violation of Iowa Code section 202B.201 as it stands at the time of the entry of this Agreement, as it stood at any time prior to this Agreement, or may stand in the future. It is further agreed and understood that said consideration is given and accepted in compromise of disputed claims, and that nothing contained herein, is, or is to be construed as, an admission of liability on the part of the Processor, all such liability being expressly denied.

6. Contract Grower Remedies.

A. As a third-party beneficiary of this Agreement, a Contract Grower who suffers damages as a result of a Processor's breach of this Agreement, or a Contract Grower Agreement, may obtain appropriate legal and equitable relief in a suit at common law against the Processor.

B. As a third-party beneficiary of this Agreement, a Prospective Contract Grower who suffers damages as a result of a Processor's breach of this Agreement may obtain appropriate legal and equitable relief in a suit at common law against the

Processor.

C. The laws of the State of Iowa shall be applicable to any Contract Grower Agreement between a Processor and a Contract Grower located in the State of Iowa.

D. A Processor shall not use binding alternative dispute resolution as a mechanism to resolve any disputes related to, or arising from, this Agreement or a Contract Grower Agreement. However, nothing in this Agreement shall affect a Party's obligation to mediate a dispute pursuant to Iowa's mandatory mediation program, if applicable.

E. The venue of any dispute between a Processor and a Contract Grower or Prospective Contract Grower arising out of this Agreement or a Contract Grower Agreement shall be as follows:

1) Any action by a Contract Grower or Prospective Contract Grower to enforce this Agreement shall be brought in the Iowa District Court for Polk County or the United States District Court for the Southern District of Iowa.

2) Any action brought by a Processor to enforce this Agreement shall be brought in either the Iowa District Court for the county in which the Contract Grower resides or in the United States District Court for the Northern or Southern District of Iowa, as applicable.

3) Any action brought by a Processor or Contract Grower or Prospective Contract Grower to enforce a Contract Grower Agreement shall be brought as required under 7 U.S.C. § 197b(a).

F. If the Contract Grower or Prospective Contract Grower prevails in any such action against a Processor, the Contract Grower or Prospective Contract Grower shall be entitled to court costs, reasonable attorney's fees, and reasonable litigation expenses.

G. If injunctive relief is sought in such an action, a Contract Grower or Prospective Contract Grower shall not be required to post a bond.

H. A Processor shall not contract to limit the measure of damages available to a Contract Grower under Iowa law.

I. Except as specifically stated in this Agreement, a Contract Grower or Prospective Contract Grower shall be entitled to damages as provided by Iowa law and the

Processor shall be entitled to defenses as provided by Iowa law.

7. Attorney General and the Processor Remedies.

The Attorney General and the Processor shall be entitled to enforce this Agreement as a binding contract in any state or federal court with jurisdiction over the Parties hereto. The Attorney General may enforce this Agreement and any of the rights of Contract Growers and Prospective Contract Growers identified in this Agreement against the Processor. The Attorney General shall also be entitled to injunctive relief, if appropriate, in order to redress violations of this Agreement or Contract Grower Rights. If the Attorney General prevails in such a proceeding against the Processor, the presiding court may award liquidated damages against the Processor, in an amount up to $1,000 per day. Except as otherwise specifically stated in this Agreement, Processor may enforce this Agreement and its respective rights hereunder against the State, whether in the form of seeking injunctive or declaratory relief, exercising affirmative defense, or otherwise, as allowed at law or in equity.

8. Term.

This Agreement shall be binding upon and enforceable against the Processor and the State in accordance with its terms until midnight September 16, 2031, after which the rights of the Parties will be as they stood prior to the date of the execution of this Agreement. Notwithstanding the foregoing, each Processor has the right to: a) enter into agreements with Contract Growers for the care and feeding of swine owned by such Processor in the State of Iowa with a term extending beyond the term of this Agreement and, with respect to each such Contract Grower Agreement, the provisions of this Agreement shall remain in effect for the full term of such Contract Grower Agreement; and b) remain as an owner or enter into agreements to be an owner of otherwise Qualified Processors with a term extending beyond the term of this Agreement and with respect to such agreements the provisions of this Agreement shall remain in effect for the full term of such agreements.

9. More Favorable Terms.

A. If, at any time during the period this Agreement is in effect, the State by and through its Attorney General or otherwise, enters into any agreement(s) with any other processor(s) (a) to extend, in whole or in part, the terms of the State's existing consent decree(s) or other consent agreements with the processor(s), or (b) providing a waiver or forbearance of enforcement of Iowa Code Section 202.B.201, then the State shall notify the Processor of such agreement(s) and provide the Processor with copies of the same within ten (10) days after execution of the agreements.

B. If at any time during the period this Agreement is in effect, the State, by and through its Attorney General or otherwise, has previously made available or hereafter makes available to another processor in a consent decree or other agreement regarding Iowa Code section 202B.201, as it now exists and/or as it may be amended, more favorable terms than the terms in this Agreement, then the Attorney General shall make available to the Processor the benefits of such more favorable terms. The Parties shall document in writing the modification of this Agreement to include any such more favorable terms.

10. Entire Agreement.

This Agreement constitutes the entire agreement between the Parties upon which each relies as an inducement to settlement. The terms of this Agreement are contractual and not merely a recital. None of the terms shall be altered or modified in whole or in part except in writing acknowledged by each Party.

11. Integration Clause.

In the event any provision of this Agreement shall be found to be void or unenforceable, all provisions of this Agreement shall therein be void and unenforceable.

12. Clarification.

Nothing in this Agreement shall be construed to abrogate or supersede the provisions of Iowa Code chapters 9H or 9I.

13. Public Record.

The Parties acknowledge this Agreement is a public record under Iowa Code chapter 22, and it is available for public inspection and copying upon request.
