Eligibility

Agencies must be operated by a public or nonprofit agency, or a combination of such agencies. FVPSA funds are granted to programs to increase public awareness about domestic violence and its impact on families and support programs for the prevention of family violence, provide immediate shelter and related assistance to victims of family violence and their dependents, and provide training and technical assistance to family violence personnel in states, local public agencies (including law enforcement agencies, courts, social service agencies, and health care professionals), and non-profit private organizations.

These programs include, but are not limited to:

- domestic abuse programs
- domestic abuse shelters
- other community-based victim coalitions.

Confidential Location Federal guidelines require that the address or location of the shelter will not be made public except with written authorization of the person(s) responsible for operation of the shelter.

Purpose

The purpose of FVPSA Programs is:

1. to assist nonprofit organizations, local public agencies, approved partnerships, and faith-based organizations in supporting the establishment, maintenance, and expansion of programs and projects to prevent incidents of family violence, domestic violence, and dating violence;
2. to provide immediate shelter, supportive services, and access to community-based programs for adult and youth victims of family violence, domestic violence, or dating violence, and their dependents; and
3. to provide specialized services for children exposed to family violence, domestic violence or dating violence, underserved populations, and victims who are members of racial and ethnic minority populations.

Family Violence and Protection Act Definitions

The following definitions are from the Family Violence and Prevention Act, P.L. 98-457, 42 USC 10401 sec. 309, as amended in 1992 by P.L. 102-295, and as amended in 1994 by P.L. 103-322 and as outlined in the [FVPSA Final Rule](#) that became effective January 3, 2017.

Dating violence means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship shall be determined based on a consideration of the following factors: The length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. This part of the definition reflects the definition also found in Section 40002(a) of VAWA (as amended), 42 U.S.C. 13925(a), as required by FVPSA.

Dating violence also includes but is not limited to the physical, sexual, psychological, or emotional violence within a dating relationship, including stalking. It can happen in person or electronically, and may involve financial abuse or other forms of manipulation which may occur between a current or former dating partner regardless of actual or perceived sexual orientation or gender identity.

Domestic violence means felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction. This definition also reflects the statutory definition of "domestic violence" found in Section 40002(a) of VAWA (as amended), 42 U.S.C. 13925(a). This definition also includes but is not limited to criminal or non-criminal acts constituting intimidation, control, coercion and coercive control, emotional and psychological abuse and behavior, expressive and psychological aggression, financial abuse, harassment, tormenting behavior, disturbing or alarming behavior, and additional acts recognized in other Federal, Tribal State, and local laws as well as acts in other Federal regulatory or sub-regulatory guidance. This definition is not intended to be interpreted more restrictively than FVPSA and VAWA but rather to be inclusive of other, more expansive definitions. The definition applies to individuals and relationships regardless of actual or perceived sexual orientation or gender identity.

Family violence means any act or threatened act of violence, including any forceful detention of an individual, that results or threatens to result in physical injury and is committed by a person against another individual, to or with whom such person is related by blood or marriage, or is or was otherwise legally related, or is or was lawfully residing.

Personally identifying information (PII) or personal information is individually identifying information for or about an individual including information likely to disclose the location of a victim of domestic violence, dating violence, sexual assault, or stalking, regardless of whether the information is encoded, encrypted, hashed, or otherwise protected, including, a first and last name; a home or other physical address; contact information (including a postal, email or Internet protocol address, or telephone or facsimile number); a social security number, driver license number, passport number, or student identification number; and any other information, including date of birth, racial or ethnic background, or religious affiliation, that would serve

to identify any individual.

Primary prevention means strategies, policies, and programs to stop both first-time perpetration and first-time victimization. Primary prevention is stopping domestic and dating violence before they occur. Primary prevention includes, but is not limited to: School-based violence prevention curricula, programs aimed at mitigating the effects on children of witnessing domestic or dating violence, community campaigns designed to alter norms and values conducive to domestic or dating violence, worksite prevention programs, and training and education in parenting skills and self-esteem enhancement.

Primary-purpose domestic violence service provider, for the term only as it appears in the definition of State Domestic Violence Coalition, means an entity that operates a project of demonstrated effectiveness carried out by a nonprofit, nongovernmental, private entity, Tribe, or Tribal organization, that has as its project's primary-purpose the operation of shelters and supportive services for victims of domestic violence and their dependents; or has as its project's primary purpose counseling, advocacy, or self-help services to victims of domestic violence.

Territorial Domestic Violence Coalitions may include government-operated domestic violence projects as primary-purpose domestic violence service providers for complying with the membership requirement, provided that Territorial Coalitions can document providing training, technical assistance, and capacity-building of community-based and privately operated projects to provide shelter and supportive services to victims of family, domestic, or dating violence, with the intention of recruiting such projects as members once they are sustainable as primary-purpose domestic violence service providers. Secondary prevention is identifying risk factors or problems that may lead to future family, domestic, or dating violence, and taking the necessary actions to eliminate the risk factors and the potential problem, and may include, but are not limited to, healing services for children and youth who have been exposed to domestic or dating violence, home visiting programs for high-risk families, and screening programs in health care settings.

Shelter means the provision of temporary refuge in conjunction with supportive services in compliance with applicable State or Tribal law or regulations governing the provision, on a regular basis, of shelter, safe homes, meals, and supportive services to victims of family violence, domestic violence, or dating violence, and their dependents.

State and Tribal law governing the provision of shelter and supportive services on a regular basis is interpreted by ACF to mean, for example, the laws and regulations applicable to zoning, fire safety, and other regular safety, and operational requirements, including State, Tribal, or local regulatory standards for certifying domestic violence advocates who work in shelter. This definition also includes emergency shelter and immediate shelter, which may include housing provision, rental subsidies, temporary refuge, or lodging in properties that could be individual units for families and individuals (such as apartments) in multiple locations around a local jurisdiction, Tribe/reservation, or State; such properties are not required to be owned, operated, or leased by the program.

Temporary refuge includes a residential service, including shelter and off-site services such as hotel or motel vouchers or individual dwellings, which is not transitional or permanent housing, but must also provide comprehensive supportive services. The mere act of making a referral to shelter or housing shall not itself be considered provision of shelter. Should other jurisdictional laws conflict with this definition of temporary refuge, the definition which provides more expansive housing accessibility governs.

State Domestic Violence Coalition means a Statewide, nongovernmental, nonprofit 501(c)(3) organization whose membership includes a majority of the primary-purpose domestic violence service providers in the State; whose board membership is representative of these primary-purpose domestic violence service providers and which may include representatives of the communities in which the services are being provided in the State; that has as its purpose to provide education, support, and technical assistance to such service providers to enable the providers to establish and maintain supportive services and to provide shelter to victims of domestic violence and their children; and that serves as an information clearinghouse, primary point of contact, and resource center on domestic violence for the State and supports the development of policies, protocols and procedures to enhance domestic violence intervention and prevention in the State/Territory.

Supportive services means services for adult and youth victims of family violence, domestic violence, or dating violence, and their dependents that are designed to meet the needs of such victims and their dependents for short- term, transitional, or long-term safety and recovery. Supportive services include, but are not limited to: Direct and/or referral-based advocacy on behalf of victims and their dependents, counseling, case management, employment services, referrals, transportation services, legal advocacy or assistance, child care services, health, behavioral health and preventive health services, culturally and linguistically appropriate services, and other services that assist victims or their dependents in recovering from the effects of the violence.

To the extent not already described in this definition, supportive services also include but are not limited to other services identified in FVPSA at 42 U.S.C. 10408(b)(1)(A)–(H). Supportive services may be directly provided by grantees and/or by providing advocacy or referrals to assist victims in accessing such services.

Underserved populations means populations who face barriers in accessing and using victim services, and includes populations underserved because of geographic location, religion, sexual orientation, gender identity, underserved racial and ethnic populations, and populations underserved because of special needs including language barriers, disabilities, immigration status, and age.

Individuals with criminal histories due to victimization and individuals with substance use disorders and mental health issues are also included in this definition. The reference to racial and ethnic populations is primarily directed toward racial and ethnic minority groups (as defined in section 1707(g) of the Public Health Service Act (42 U.S.C. 300(u–6)(g)), which means American Indians (including Alaska Natives, Eskimos, and Aleuts); Asian American; Native Hawaiians and other Pacific Islanders; Blacks and Hispanics. The term “Hispanic” or “Latino” means individuals whose origin is Mexican, Puerto Rican, Cuban, Central or South American, or any other Spanish- speaking country. This underserved populations’ definition also includes other population categories determined by the Secretary or the Secretary’s designee to be underserved.

Allowable Services-Related Assistance

Related Assistance is the provision of direct assistance to victims of family violence and their dependents for the purpose of preventing further violence, helping such victims to gain access to civil and criminal court and other community services, facilitating the efforts of such victims to make decisions concerning their lives in the interest of safety, and assisting such victims in healing from effects of the violence.

Allowable Services, Activities, and Costs:

Unallowable Services/Costs

Direct monetary funds given to the client (cash, gift cards or checks written to the client). However, providing specific assistance to individuals that may include making payments on behalf of shelter residents for needed emergency items while they are in shelter, is allowable. If a client moves from the shelter into an apartment or house, but later requests direct assistance with rent, utilities or other expenses, FVPSA funds may not be used for this purpose. However, providing specific assistance to individuals who are in the process of moving out of the shelter facility, including the payment of rent, utilities or other expenses on behalf of the shelter resident, is allowable.

FVPSA funds may not be used for fundraising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions.

FVPSA funds may not be used to pay for food and beverages with the exception of food and beverages used within the shelter and for shelter residents.

See also [Chapter XVII. Unallowable Costs](#)

Reporting Requirements

The grant project director is responsible for timely submission of completed program and fiscal reports. Please see [Chapter IX. Reporting Requirements](#) for specific information.

NOTE: The subrecipient is required to gather and maintain statistical data relating to grant project activities as required by CVAD. During desk audits, on-site monitoring and any other time at CVAD's discretion, CVAD may request to see the back-up data that supports the information submitted on your reports.

Match Requirements

Match is required for all agencies, except victim service providers and tribal government organizations. For an agency to qualify under this exclusion, the recipient must be an organization that is recognized by the Internal Revenue Service (IRS) as a tax-exempt organization described in section 501(c)(3) of Title 26 of the United States Code (unless it is a tribal governmental organization or a governmental rape crisis center in a State other than a Territory).

The following provisions apply to match requirements:

1. Subgrantees may satisfy the match requirement with either cash (e.g., funds contributed from private sources or state and local governments) or in-kind services (e.g., services or goods donated by the applicant organization or other entities).
2. Funds from other federal sources may not be used to meet the match requirement.
3. Funds or in-kind resources used as match must be directly related to the project goals and objectives.
4. Subgrantees must maintain records which clearly show the source, the amount, and the timing of all matching contributions.
5. Sources of match are restricted to the same requirements as federal grant sources allocated to the

project and must be documented in the same manner as federal sources, including financial and programmatic reports.

Match Calculation:

In order to calculate the FVPSA match, multiply the award amount by 25%. As stated above, match must be from non-federal sources based on the FVPSA award amount. Non-profit, nongovernmental victim services programs are not required to make match. For example, if grant funds total \$100,000, your agency must provide \$25,000 in match (100,000 multiplied by 25% = \$25,000)

Contract Period

Subrecipient contracts will be issued annually for every year of the three-year application period.

The majority of the contracts are issued for a 12-month period beginning October 1, and ending September 30 of the following year. The contract will include the amount of funds awarded for that year. During a multi-year award cycle, a contract is issued annually.

Each grantee must be in compliance with state and federal rules and in good standing with the Victim Services Support Program (VSS) requirements and procedures to receive funding in the second and third years of the cycle. The amount available to designated programs in the second and third year of the cycle will be based on the State and Federal funds available.

For more information on CVAD contracts with subrecipients, please see [Chapter II. Post-Award Requirements, CVAD Contracts](#).

Non-Supplanting

Federal funds must be used to supplement existing funds for program activities and not replace those funds, which have been appropriated for the same purpose. Potential supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the grant recipient will be required to supply documentation demonstrating the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

For more information on non-supplantation and grant requirements, see [Chapter III. Financial Requirements, Grant Accountability Requirements](#).

[Non-Supplanting](#)

The [Sexual Abuse Services Program funds \(SASP or SS\)](#) was created by the Violence Against Women and Department of Justice Reauthorization Act of 2005 (VAWA 2005), 42 U.S.C. §14043g, and is the first Federal funding stream solely dedicated to the provision of direct intervention and related assistance for victims of sexual assault. Overall, the purpose of SASP is to provide intervention, advocacy, accompaniment (e.g., accompanying victims to court, medical facilities, police departments, etc.), support services, and related assistance for adult, youth, and child victims of sexual assault, family and household members of victims and those collaterally affected by the sexual assault.

SASP subrecipients must adhere to all requirements in the [DOJ Grants Financial Guide](#) and the [OMB Uniform Guidance](#).

[Sexual Assault Services Program certified assurances](#)

Eligibility

Sexual abuse programs and rape crisis centers are eligible in Iowa as long as they are considered a non-profit, nongovernmental organization.

Purpose

Purpose of the SASP Funds is to provide direct services to sexual assault victims: The following information is taken from OVW FY2009 Sexual Assault Services Formula Grant Program Application Kit, Office on Violence Against Women, U.S. Department of Justice.

“The program must demonstrate a record of providing effective services to sexual assault victims. The overall purpose of the SASP funds are to provide intervention, advocacy, accompaniment (e.g., accompanying victims to court, medical facilities, hospitals, police departments, etc.), support services, and related assistance to:

- Adult, youth, and child victims of sexual assault;
- Family and household members of such victims; and
- Those collaterally affected by the victimization, except for the perpetrator of such victimization (e.g., friends, co-workers, classmates).”

Allowable Services Include

- 24-hour hotline services providing crisis intervention services and referral;
- Accompaniment and advocacy through medical, criminal justice, and social support systems, including medical facilities, police, and court proceedings;
- Crisis intervention, short-term individual and group support services, and comprehensive service coordination and supervision to assist sexual assault victims and family or household members;
- Information and referral to assist the sexual assault victim and non-offending family or household

- members, including outreach activities;
- Community-based, linguistically and culturally specific services and support mechanisms, including outreach activities for underserved communities; and
- The development and distribution of materials on issues related to the services described in the previous bullets. For example, a program could use pamphlets, brochures, or community presentations to announce the services available under the grant.

Other Allowable uses of SASP funds include:

- SASP funds may be used to support projects that focus on direct services for children who are victims of sexual assault. Services rendered to children do not have to be in connection to serving an adult parent and there is no age restriction on providing services to children.
- SASP funds may be used to support a hotline to the extent the hotline is for sexual assault victims. If the hotline covers a broader array of issues, the costs should be pro-rated according to the percentage of calls that are for sexual assault. In order for a multi-issue hotline to receive SASP funds, the people who answer the hotline would need to have sexual assault specific training. See [Chapter VI. Victim Advocate Certification and Training Requirements](#) for more information on required training.

SASP funds may be used to support volunteer related expenses as they relate to the SASP project. Examples would include training and supervision of volunteers.

SASP funds may be used to train advocates (volunteer or employee) that will provide specific grant-funded services. Note: funds may not be used to provide a generalized statewide training nor may funds be used to develop training curriculum.

Gift cards to clients are only allowable to the extent that they are used for allowable costs under SASP such as the purchase of emergency food for SASP clients or gas for victims to attend court, appointments etc. related to the victimization. However, agencies must acquire a receipt from the client which documents only allowable items (food or gas-in the example) were purchased. Without copies of these receipts, these costs will be deemed unallowable by OCJP and repayment of these funds will be required.

Applicants are encouraged to allocate grant funds to support activities that help to ensure individuals with disabilities and Deaf individuals and persons with limited English proficiency have meaningful and full access to their programs. For example, grant funds can be used to support American Sign Language (ASL) interpreter services, language interpretation and translation services, or the purchase of adaptive equipment. Applicants proposing to use grant funds to create websites, videos and other materials must ensure that they are accessible to persons with disabilities and grant funds must be allocated for these purposes. See also [Chapter XVI. Allowable Costs](#)

Unallowable Costs

- SASP grant funds may not be used for education programs or training for allied professionals or the general public.
- SASP funds may not be used for activities focused on prevention efforts (e.g. bystander intervention, social norm campaigns, presentations on healthy relationships, etc.). However, funds may be used for outreach to inform persons about the services provided by a specific program. For example, a program could use pamphlets, brochures, or community presentations to announce the services available under the grant.
- SASP funding may not be used for lobbying.
- SASP funding may not be used for research projects.
- SASP funding may not be used for physical modifications to buildings, including minor renovations and vehicle purchases.
- SASP funds may not be used for Sexual Assault Forensic Examiner (SANE) projects.
- SASP funds may not be used for criminal justice-related projects including law enforcement, prosecution, courts and forensic interviews.
- SASP funds may not be used to support Sexual Assault Response Teams (SART). However, if an advocate position is funded under the SASP grant, the advocate's time in attending SART meetings

may be covered as part of the advocacy he or she provides.

- SASP funds may not be used for providing domestic violence services that do not relate to sexual violence.
- SASP funds may not be used to purchase food and beverage.
- SASP funds may not be used for fundraising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions.
- Unallowable costs relating to activities that compromise victim safety and recovery

The following activities have been found to jeopardize victim safety, deter or prevent physical or emotional healing for victims, or allow offenders to escape responsibility for their actions:

- Procedures or policies that exclude victims from receiving safe shelter, advocacy services, counseling, and other assistance based on their actual or perceived age, immigration status, race, religion, sexual orientation, gender identity, mental health condition, physical health condition, criminal record, work in the sex industry, or the age and/or gender of their children;
- Crafting policies that deny individuals access to services based on their relationship to the perpetrator;
- Developing materials that are not tailored to the dynamics of sexual assault or the culturally specific population to be served;
- Crafting policies or engaging in practices that impose restrictive conditions to be met by the victim in order to receive services (e.g., counseling, seeking an order for protection);
- Sharing confidential victim information with outside organizations and/or individuals without the documented consent of the victim; and
- Crafting policies that require the victim to report the sexual assault to law enforcement.
- SASP projects that engage in activities that compromise victim safety and recovery may be eliminated from further funding consideration.

Federal funds must be used to supplement existing funds for program activities and not replace those funds, which have been appropriated for the same purpose. Potential supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the grant recipient will be required to supply documentation demonstrating that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

 - The development of such protocols in collaboration with State, tribal, territorial and local victim services providers and domestic violence coalitions.

NOTE: Any law enforcement, State, tribal, territorial, or local government agency receiving funding under the Crystal Judson Domestic Violence Protocol Program shall on an annual basis, receive additional training on the topic of incidents of domestic violence committed by law enforcement personnel from domestic violence and sexual assault nonprofit organizations and, after a period of 2 years, provide a report of the adopted protocol to the Department of Justice, including a summary of progress in implementing such protocol. As such, States are responsible for ensuring that each subgrantee receiving funds under this purpose area will receive the required annual training.

States are also responsible for ensuring that subgrantees submit their 2-year report to the Department of Justice. States and Territories must notify and provide the Office on Violence Against Women with a list of subgrantee recipients awarded STOP funds under the Crystal Judson Domestic Violence Protocol Program.

16. 22. Developing, enhancing, or strengthening prevention and educational programming to address domestic violence, dating violence, sexual assault, or stalking, with not more than 5 percent of the amount allocated to a State to be used for this purpose.

Allowable Services/Costs

STOP VAWA funds may be used for/to:

- **Personnel, training, technical assistance, evaluation, data collection and equipment** costs to enhance the apprehension, prosecution and adjudication of persons committing violent crimes against women. Children's services must be inextricably linked to providing services to victims of domestic violence. For example, STOP funds may support the expansion of shelter services for battered women to include programs for their children.
- **Transportation costs**, in limited circumstances, that are reasonable and would enhance a woman's safety, including transportation out-of-state.
- **Operational costs of a facility**, such as a shelter, however if the project is supported with funds from other sources as well, i.e. VOCA or other funding, the rent and operational expenses must be prorated among the different funding sources. If the shelter owns its own facility, rent for use of that facility may not be charged to the grant at all; however, related expenses such as utilities and building security may be charged to the grant.
- **Outreach**; to support, inform, and provide outreach to victims about available services. For example, a shelter could distribute brochures listing the signs of domestic violence, describing the services available, and providing a hotline number to access the services. Initiatives designed to reach victims, rather than raise awareness generally, may be supported with STOP funds.
- **Pro-rated share of food for emergency client needs** and the pro-rated share of food purchases for domestic violence shelter resident's use.
- **Provide services to incarcerated victims** but only to address the domestic violence, dating violence, sexual assault, or stalking victimization experienced by the incarcerated individual, including both crimes experienced while incarcerated and crimes experienced at other points in their youth and adult lives.
- **Gift cards to clients** are only allowable to the extent that they are used for allowable costs under STOP, such as the purchase of emergency food for STOP clients or gas for victims to attend court, appointments etc., related to the victimization. However, agencies must acquire a receipt from the client which documents only allowable items (food or gas-in the example) were purchased. Without copies of these receipts, these costs will be deemed unallowable by CVAD/VSS.
- **Rent and Deposits**; to cover a victim's first month's rent. Deposits are also allowable if the subrecipient has an agreement with the landlord that the full/remaining deposit will be returned to the subrecipient and not the victim at the end of the lease.
- **Meaningful access**; agencies are encouraged to allocate funds to support activities that help to ensure individuals with disabilities and deaf individuals and persons with limited English proficiency have meaningful and full access to their programs. For example, grant funds can be used to support American Sign Language (ASL) interpreter services, language interpretation and translation services, or the purchase of adaptive equipment. Applicants proposing to use grant funds to create websites, videos and other materials must ensure that they are accessible to persons with disabilities and grant funds must be allocated for these purposes.
- **Services to LGBT victims**; to provide services to lesbian, gay, bisexual, or transgender (LGBT) victims of domestic violence, dating violence, sexual assault, and stalking. Gay, bisexual, and transgender male victims who request services cannot be refused such services based on their sex.
- **School programs**; to support programs in schools to the extent that they fit within one or more of the STOP program's statutory program purpose areas. For example, STOP funds could be used to provide support groups that meet at school for dating violence victims or to provide information to students about services available to help victims of dating violence. However, STOP funds may not support general prevention programs in schools.
- **Civil Legal Assistance**; to support civil legal assistance and advocacy services including legal information and resources and divorce for: 1) victims of domestic violence and 2) non-offending parents in matters that involve allegations of child sexual abuse. Applicants should contact OCJP prior to including divorce services in their STOP project.

- **Co-location of services.** However, if any of the underlying services at the center cannot be funded through STOP VAWA, such as substance abuse counseling, then the staffing for those services still cannot be supported through this purpose area, just the co-location. For example, co-location costs might include a centralized intake person, rent, or security.
- **SANE/SAFE programs and related activities** including: SANE/SAFE personnel; expert testimony of SANE/SAFE personnel; forensic evidence collection kits ("rape kits"); equipment, such as colposcopes, swab dryers, and lights; outreach efforts to inform victims about available services; victim advocate personnel to accompany victims through the forensic examination process; on-going counseling services for victims; and/or on-call time of the SANE/SAFE personnel.

[See also Chapter XVI. Allowable Costs](#)

Unallowable Costs

VAWA funds may not be used for/to:

- **Children services;** to support services that focus exclusively on children.
- **Curriculum for primary or secondary schools;** to support the development or presentation of a domestic violence, sexual assault, dating violence and/or stalking curriculum for primary or secondary schools. Funds may not be used to teach primary or secondary school students from an already existing curriculum
- **Legal or defense services for perpetrators** of violence against women.
- **Public awareness campaign;** the production or broadcasting of public awareness announcements or media campaigns or community education campaigns or related activities. Grant funds may be used to support, inform, and conduct outreach to victims about available services.
- Support **inherently religious activities.**
- **Lease and/or purchase vehicles.**
- **Renovations;** including minor renovations such as painting or replacing carpeting.
- **Moving;** moving household goods to a new location or acquiring furniture or housing in a new location when a survivor is leaving a shelter.
- **Immigration fees;** for immigration fees for battered immigrant women.
- **Law Enforcement Equipment;** including uniforms, safety vests, shields, weapons, bullets, and/or armory.
- **Drug and Alcohol programs;** to pay for chemical dependency or alcohol abuse programs.
- **Research;** to conduct research.
- **Construction projects.**
- **Acquisition of land or real property.**
- **Fundraising;** including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions.
- **Substance abuse counseling.**
- **Criminal defense work,** including defending women who assault, kill, or otherwise injure their abusers.

Unallowable Costs Relating to Activities that Compromise Victim Safety and Recovery

The following activities have been found to jeopardize victim safety, deter or prevent physical or emotional healing for victims, or allow offenders to escape responsibility for their actions and cannot be supported with STOP VAWA funds:

- Procedures or policies that exclude victims from receiving safe shelter, advocacy services, counseling, and other assistance based on their actual or perceived age, immigration status, race, religion, sexual orientation, gender identity, mental health condition, physical health condition, criminal record, work in the sex industry, or the age and/or gender of their children.
- Procedures or policies that compromise the confidentiality of information and privacy of persons receiving OVW funded services.
- Offering perpetrators the option of entering pre-trial diversion programs or placing batterers in anger management programs.
- Requiring mediation or counseling for couples as a systemic response to domestic violence or sexual assault or in situations in which child sexual abuse is alleged.

- Requiring victims to report sexual assault, stalking, or domestic violence crimes to law enforcement or forcing victims to participate in criminal proceedings.
- Relying on court-mandated batterer intervention programs that do not use the coercive power of the criminal justice system to hold batterers accountable for their behavior.
- Supporting policies or engaging in practices that impose restrictive conditions to be met by the victim in order to receive services (e.g., attending counseling, seeking an order of protection).

Reporting Requirements

The Project Director is responsible for timely submission of completed program and fiscal reports. Please see [Chapter IX. Reporting Requirements](#) for specific information.

NOTE: The Program is required to gather and maintain statistical data relating to grant project activities as required by CVAD. During desk audits, on-site monitoring and any other time at CVAD's discretion, CVAD may request to see the back-up data that supports the information submitted on your reports.

Match Requirements

Match is required for all agencies, except victim service providers and tribal government organizations. For an agency to qualify under this exclusion, the recipient must be an organization that is recognized by the Internal Revenue Service (IRS) as a tax-exempt organization described in section 501(c)(3) of Title 26 of the United States Code (unless it is a Tribal governmental organization or a governmental rape crisis center in a state other than a territory).

The following provisions apply to match requirements:

1. Subgrantees may satisfy the match requirement with either cash (e.g., funds contributed from private sources or state and local governments) or in-kind services (e.g., services or goods donated by the applicant organization or other entities).
2. Funds from other federal sources may not be used to meet the match requirement.
3. Funds or in-kind resources used as match must be directly related to the project goals and objectives.
4. Subgrantees must maintain records which clearly show the source, the amount, and the timing of all matching contributions.
5. Sources of match are restricted to the same requirements as federal grant sources allocated to the project and must be documented in the same manner as federal sources, including financial and programmatic reports.

Match Calculation:

Those funded with STOP VAWA funds will calculate their required match by taking the total amount of grant funds requested and divide by 1/3. For example, if grant funds total \$50,000, your agency must provide \$16,667 in match (50,000 divided by 3 = 16,666.67).

Contract Period

Subrecipient subawards will be issued annually for every year of the three-year application period.

The majority of the contracts are issued for a 12-month period beginning October 1, and ending September 30 of the following year. The subaward will include the amount of funds awarded for that year. During a multi-year award cycle, a contract is issued annually.

Each grantee must be in compliance with state and federal rules and in good standing with the Victim Services Support Program (VSS) requirements and procedures to receive funding in the second and third years of the cycle. The amount available to designated programs in the second and third year of the cycle will be based on the State and Federal funds available.

For more information on CVAD Contracts with subrecipients, please see [Chapter II. Post-Award Requirements, CVAD Contracts](#).

Non-Supplanting

Federal funds must be used to supplement existing funds for program activities and not replace those funds, which have been appropriated for the same purpose. Potential supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the grant recipient will be required to supply documentation demonstrating that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

For more information on non-supplantation and grant requirements, see [Chapter III. Financial Requirements, Grant Accountability Requirements](#) .

Eligibility

Programs must be operated by a public or nonprofit agency, or a combination of such agencies, and provide direct services to crime victims. These programs include, but are not limited to:

- Sexual abuse and rape treatment centers
- Domestic abuse programs and shelters
- Child abuse programs
- Prosecutor based victim services
- Other community-based victim coalitions; and
- Support programs including those who serve survivors of homicide victims.
- Programs must also demonstrate a record of providing effective services to crime victims. This includes having community support and approval of its services, a history of providing direct services in a cost-effective manner, and financial support from other sources.

Those programs that have not yet demonstrated a record of providing services may be eligible to receive VOCA funding, if they can demonstrate that 25% of their financial support comes from non-federal sources. It is important that programs have a variety of funding sources besides federal funding in order to ensure their financial stability.

Only those services provided directly to crime victims can be funded with VOCA funds.

Programs must also abide by any additional eligibility or service criteria as established by the CVAD (Crime Victim Assistance Division) including submission of statistical and programmatic information on the use and impact of VOCA funds.

In addition, state specific requirements and clarification are listed below:

Volunteers: Subrecipient organizations must have volunteers unless the state determines there is a compelling reason to waive this requirement. A “compelling reason” may be a statutory or contractual provision concerning liability or confidentiality of counselor/victim information, which bars using volunteers for certain positions, or the inability to recruit and maintain volunteers after a sustained and aggressive

effort. All requests for waivers must be made in writing to VSS providing specific details. Volunteers are not required to work in the VOCA program unless the time is used as in-kind match. All supervision, background checks, training requirements, file documentation, etc. for volunteers providing direct services to victims must be consistent with the agency policy for paid staff providing the same or similar direct service(s).

Victim Compensation Information/Assistance: Such assistance may include identifying and notifying crime victims of the availability of compensation, assisting them with documentation, and/or with application forms and procedures, obtaining necessary documentation, and/or checking on claim status. All victims who appear to be eligible must be notified of their right to apply for compensation from Criminal Injury Compensation.

Purpose

In 1984, VOCA established the Crime Victims Fund in the U.S. Treasury and authorized the Fund to receive deposits of fines and penalties levied against criminals convicted of federal crimes. The Department of Justice is responsible for the distribution of the funds, which are collected by U.S. Attorney's Offices, U.S. Courts, and the U.S. Bureau of Prisons. This Fund provides the source of funding for all activities authorized by VOCA.

The purpose of the Victims of Crime Act (VOCA) is to provide high quality services that directly improve the health and well-being of victims of crime with priority given to victims of child abuse, domestic violence, sexual assault and services for previously underserved victims. The Office for Crime Victims (OVC) makes annual VOCA crime victim assistance grants from the Fund to states. The primary purpose of these grants is to support the provision of services to victims of crime throughout the nation. For the purpose of these Programs Guidelines, services are defined as those efforts that:

- Respond to the emotional and physical needs of crime victims;
- Assist primary and secondary victims of crime to stabilize their lives after victimization;
- Assist victims to understand and participate in the criminal justice system, provide victims of crime with a measure of safety and security such as boarding up broken windows and replacing or repairing locks.

The governor of each state designates the state agency that will administer the VOCA victim assistance grant program. In Iowa, the Office of the Attorney General, Crime Victim Assistance Division is the administering agency. The designated agency establishes policies and procedures. VOCA funds granted to the states are to be used by eligible public and private nonprofit organizations to provide direct services to crime victims. States have sole discretion for determining which organizations will receive funds, and in what amounts, as long as the subrecipients meet the requirements of VOCA.

The costs permitted for direct services to incarcerated victims are the same as those permitted for such services to any crime victim as long as the services relate to the victimization and not the charge for which the individual is incarcerated. This change does not allow VOCA funding to be diverted to "prison purposes". VOCA funding is not subject to mandated reduction or reallocation for non-compliance under PREA.

2. How any acquisition will be integrated into and/or enhance the program's current system;
3. The cost of installation;
4. The cost of training staff to use the automated systems and technology;
5. The ongoing operational costs, such as maintenance agreements, supplies; and
6. How additional costs relating to any acquisition will be supported. 28 CFR 94.120(e).

Reporting Requirements

The Project Director is responsible for timely submission of completed program and fiscal reports. Please see [Chapter IX-Reporting Requirements](#) for specific information.

NOTE: The Program is required to gather and maintain statistical data relating to grant project activities as required by CVAD. During desk audits, on-site monitoring and any other time at CVAD's discretion, CVAD may request to see the back-up data that supports the information submitted on your reports.

Match Requirements

Match is required for all agencies, except tribal government organizations. Match waivers may be available

in limited circumstances with appropriate justification (*see Match Waivers in [Chapter III Financial Requirements, Grant Accountability Requirements](#)).

The following provisions apply to match requirements:

1. Subgrantees may satisfy the match requirement with either cash (e.g., funds contributed from private sources or state and local governments) or in-kind services (e.g., services or goods donated by the applicant organization or other entities).
2. Funds from other federal sources may not be used to meet the match requirement.
3. Funds or in-kind resources used as match must be directly related to the project goals and objectives.
4. Subgrantees must maintain records which clearly show the source, the amount, and the timing of all matching contributions.
5. Sources of match are restricted to the same requirements as federal grant sources allocated to the project and must be documented in the same manner as federal sources, including financial and programmatic reports.

Match Calculation:

In order to calculate the VOCA match, multiply the award amount by 25%. As stated above, match must be from non-federal sources based on the VOCA award amount. Non-profit, nongovernmental victim services programs are not required to make match. For example, if your grant funds total \$150,000 your agency must provide \$37,500 in match ($\$150,000 \times 25\% = \$37,500$).

Contract Period

Subrecipient subawards will be issued annually for every year of the three-year application period.

The majority of the contracts are issued for a 12-month period beginning October 1, and ending September 30 of the following year. The subaward will include the amount of funds awarded for that year. During a multi-year award cycle, a contract is issued annually.

Each grantee must be in compliance with state and federal rules and in good standing with the Victim Services Support Program (VSS) requirements and procedures to receive funding in the second and third years of the cycle. The amount available to designated programs in the second and third year of the cycle will be based on the State and Federal funds available.

For more information on CVAD Contracts with subrecipients, please see [Chapter II. Post-Award Requirements, CVAD Contracts](#).

Non-Supplanting

Federal funds must be used to supplement existing funds for program activities and not replace those funds, which have been appropriated for the same purpose. Potential supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the grant recipient will be required to supply documentation demonstrating that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

For more information on non-supplantation and grant requirements, see [Chapter III. Financial Requirements, Grant Accountability Requirements](#).

[Contract Period](#)

These funds are appropriated annually by the Iowa Legislature. 100% of these funds are distributed to programs providing victim services.

Programs providing services to victims of domestic abuse must have the capacity to provide or arrange safe shelter for domestic abuse victims and their children. Programs providing services to sexual abuse victims must have the capacity to provide in-person support to victims at the time of a sexual abuse evidentiary examination.

These programs include, but are not limited to:

- Sexual abuse and rape crisis centers,
- Domestic abuse comprehensive programs,
- Domestic abuse comprehensive shelters,
- Survivors of homicide and other violent crime, comprehensive programs and;

Purpose

Funding is intended to support domestic abuse comprehensive, sexual abuse comprehensive, survivors of homicide and other violent crime programs to provide services to victims implementing the new model of services as outlined in Iowa's [Strategic Funding & Service Plan](#). Funds are equitably distributed to Iowa's urban and rural areas based on a formula.

Allowable Services and Costs

1. **Personnel (salary/benefits)** to support advocates who provide direct services to respond to the physical and emotional needs of victims of crime, as well as to supervise individuals providing direct services and to carry out other program needs.
2. **Transportation costs** to provide services to victims in their communities, to transport victims for safety or service needs, or to attend trainings/conferences/meetings.
3. **Operational costs of a facility** such as a shelter, however if the project is supported with funds from other sources as well, i.e. VOCA, HUD or FVPSA, the rent and operational expenses must be prorated among the different funding sources. If an agency owns a shelter, the agency may not charge rent to the grant for the use of the shelter; however, related expenses such as utilities, maintenance/repairs and building security may be charged to the grant.
4. **Community Outreach** to support, inform, and provide outreach to victims about available services. For example, a shelter could distribute brochures listing the signs of domestic violence, describing the services available, and providing a hotline number to access the services. Initiatives designed to reach victims, rather than raise awareness generally, may be supported with State SA/DA funds.
5. **Food** purchases for shelter residents, clients being relocated, or for clients in other situations as deemed necessary by the program. If food is purchased with state funds because federal funds

prohibit the purchase of food (except in emergency situations-i.e. relocating victim, etc.), you cannot use this purchase as match to your federal grant.

6. **Provide services to incarcerated victims** but only to address any victimization experienced by the incarcerated individual, including both crimes experienced while incarcerated and crimes experienced at other points in their youth and adult lives.
7. **Financial Assistance to Clients** to aid in their health, safety, security or stabilization due to victimization. Examples of client assistance include, but are not limited to, relocation costs (commercial transportation, utilities, etc.), transportation costs (bus tokens, cab fare, etc.), school supplies for children, equipment needed to return to work, household needs, etc. All expenses must be supported by itemized receipts. Cash and prepaid debit/credit cards may only be provided to clients in rare circumstances and must be documented and justified by the program with approval from CVAD.
8. **Equipment & Supplies** necessary to provide quality services to victims, or outreach to other individuals and organizations. Equipment and supplies can include, but are not limited to, laptops, cell phones, tablets, desk top computers, fax machines, copiers, cell phones, hot spots, projectors, etc.
9. **Housing Assistance**; to cover a victim's rent, mortgage, deposit, utilities, hotel/motel costs, lot rent and any other costs associated with obtaining safety and stabilization in a living arrangement. Housing assistance also includes safe, confidential shelter services.
10. **Contractual Services** such as the pro-rated monthly or annual costs for maintenance and upkeep of the program, IT support, accounting services, audit costs, cell phone service agreements, etc.
11. **Meaningful access**; agencies are encouraged to allocate funds to support activities that help to ensure individuals with disabilities, Deaf and Hard of Hearing individuals and persons with limited English proficiency have meaningful, full access to their services. For example, grant funds can be used to support American Sign Language (ASL) interpreter services, language interpretation and translation services, or the purchase of adaptive equipment. Applicants proposing to use grant funds to create websites, videos and other materials must ensure they are accessible to persons with disabilities and grant funds must be allocated for these purposes.
12. **Directors, Officers and Managers (DOM) Insurance** premiums are allowable.
13. **School programs**; outreach to students, administrators, counselors and educators about victimization and available services.
14. **Civil Legal Assistance** to support civil legal assistance and advocacy services including legal information and resources, custodial and divorce arrangements stemming from the victimization, housing advocacy, representation at campus hearings, immigration needs and any other legal needs stemming from the victimization. 15. **Co-location of services** such as Substance Abuse Programs, Mental Health Programs, Trauma Recovery Centers and other services provided to victims.
16. **Prevention** is allowed for the salary, benefits and related costs up to 20% of one FTE per service type (SA, DA, Homicide/other Violent Crimes).
17. **Fundraising** is allowed for the salary, benefits and related costs up to 20% of one FTE per CVAD funded agency.
18. **Match**; state DA/SA funds are allowable for the purposes of match on federal grant awards. CVAD encourages programs to diversify funding sources to ensure long-term sustainability so a program should demonstrate efforts of other cash and in-kind support for the CVAD funded program. Attention should be paid to match eligibility requirements for each federal fund source allocated to the program. State funds cannot be used as match for your federal grant if the expense is unallowable for that specific fund source under federal guidelines.
19. **Specialized services to historically marginalized and underserved populations.** CVAD maintains a commitment to ensuring access to survivors from all levels of ability, race, ethnicity, sexual orientation, culture, age, socioeconomic status, geographic location, gender and any other traditionally un/underserved populations across the State of Iowa, regardless of citizenship status, language spoken, or other personal characteristics.
20. **Volunteer training and coordination**
21. **24-hour crisis line services**
22. **Counseling** services provided in a safe and confidential location.
23. **Support Groups** for at least two individuals engaged in therapeutic communication. These include both traditional and non-traditional (gardening group, book club, running group, etc.) options.
24. **Education about Victim Compensation** can be provided to victims to ensure the victim understands how to apply and benefits available to ease out of pocket expenses due to the crime.
25. **Coordinated Community Response (CCR).** Funds can be used to pay for the salary and benefits of

Unallowable Costs

The following costs are ineligible with state DA and SA funds:

- Bonuses for staff
- Food and beverages for staff events including but not limited to staff meetings, agency trainings, local workgroups or task forces, etc. (Food IS an allowable expense for clients experiencing food insecurity due to the victimization, or to ensure services can be received by the client; Food for staff while at a conference/training requiring an overnight stay, is also allowable)
