It is intended to serve as reference for the programmatic requirements/responsibilities of projects funded through the Victims of Crime Act Grant Program.

See [VOCA Federal Legislative Authority](#)

VOCA subrecipients must adhere to all requirements in the [DOJ Grants Financial Guide](#) and the [OMB Uniform Guidance](#).

[VOCA certified assurances](#)

Eligibility

Programs must be operated by a public or nonprofit agency, or a combination of such agencies, and provide direct services to crime victims. These programs include, but are not limited to:

- Sexual abuse and rape treatment centers
- Domestic abuse programs and shelters
- Child abuse programs
- Prosecutor based victim services
- Other community-based victim coalitions; and
- Support programs including those who serve survivors of homicide victims.
- Programs must also demonstrate a record of providing effective services to crime victims. This includes having community support and approval of its services, a history of providing direct services in a cost-effective manner, and financial support from other sources.

Those programs that have not yet demonstrated a record of providing services may be eligible to receive VOCA funding, if they can demonstrate that 25% of their financial support comes from non-federal sources. It is important that programs have a variety of funding sources besides federal funding in order to ensure their financial stability.

Only those services provided directly to crime victims can be funded with VOCA funds.

Programs must also abide by any additional eligibility or service criteria as established by the CVAD (Crime Victim Assistance Division) including submission of statistical and programmatic information on the use and impact of VOCA funds.

In addition, state specific requirements and clarification are listed below:

Volunteers: Subrecipient organizations must have volunteers unless the state determines there is a compelling reason to waive this requirement. A “compelling reason” may be a statutory or contractual provision concerning liability or confidentiality of counselor/victim information, which bars using volunteers for certain positions, or the inability to recruit and maintain volunteers after a sustained and aggressive effort. All requests for waivers must be made in writing to VSS providing specific details. Volunteers are not required to work in the VOCA program unless the time is used as in-kind match. All supervision, background checks, training requirements, file documentation, etc. for volunteers providing direct services to victims must be consistent with the agency policy for paid staff providing the same or similar direct service(s).

Victim Compensation Information/Assistance: Such assistance may include identifying and notifying crime victims of the availability of compensation, assisting them with documentation, and/or with application forms and procedures, obtaining necessary documentation, and/or checking on claim status. All victims who appear to be eligible must be notified of their right to apply for compensation from Criminal Injury Compensation.

Purpose

In 1984, VOCA established the Crime Victims Fund in the U.S. Treasury and authorized the Fund to receive deposits of fines and penalties levied against criminals convicted of federal crimes. The Department of Justice is responsible for the distribution of the funds, which are collected by U.S. Attorney's Offices, U.S. Courts, and the U.S. Bureau of Prisons. This Fund provides the source of funding for all activities authorized by VOCA.

The purpose of the Victims of Crime Act (VOCA) is to provide high quality services that directly improve the health and well-being of victims of crime with priority given to victims of child abuse, domestic violence, sexual assault and services for previously underserved victims. The Office for Crime Victims (OVC) makes annual VOCA crime victim assistance grants from the Fund to states. The primary purpose of these grants is to support the provision of services to victims of crime throughout the nation. For the purpose of these Programs Guidelines, services are defined as those efforts that:

- Respond to the emotional and physical needs of crime victims;
- Assist primary and secondary victims of crime to stabilize their lives after victimization;
- Assist victims to understand and participate in the criminal justice system, provide victims of crime with a measure of safety and security such as boarding up broken windows and replacing or repairing locks.

The governor of each state designates the state agency that will administer the VOCA victim assistance grant program. In Iowa, the Office of the Attorney General, Crime Victim Assistance Division is the administering agency. The designated agency establishes policies and procedures. VOCA funds granted to the states are to be used by eligible public and private nonprofit organizations to provide direct services to crime victims. States have sole discretion for determining which organizations will receive funds, and in what amounts, as long as the subrecipients meet the requirements of VOCA.

The costs permitted for direct services to incarcerated victims are the same as those permitted for such services to any crime victim as long as the services relate to the victimization and not the charge for which the individual is incarcerated. Reporting Requirements

The Project Director is responsible for timely submission of completed program and fiscal reports. Please see [Chapter IX-Reporting Requirements](#) for specific information.

NOTE: The Program is required to gather and maintain statistical data relating to grant project activities as required by CVAD. During desk audits, on-site monitoring and any other time at CVAD's discretion, CVAD may request to see the back-up data that supports the information submitted on your reports.

Match Requirements

Match is required for all agencies, except tribal government organizations. Match waivers may be available in limited circumstances with appropriate justification (*see Match Waivers in [Chapter III Financial Requirements, Grant Accountability Requirements](#)).

The following provisions apply to match requirements:

1. Subgrantees may satisfy the match requirement with either cash (e.g., funds contributed from private sources or state and local governments) or in-kind services (e.g., services or goods donated by the applicant organization or other entities).
2. Funds from other federal sources may not be used to meet the match requirement.
3. Funds or in-kind resources used as match must be directly related to the project goals and objectives.
4. Subgrantees must maintain records which clearly show the source, the amount, and the timing of all matching contributions.
5. Sources of match are restricted to the same requirements as federal grant sources allocated to the project and must be documented in the same manner as federal sources, including financial and programmatic reports.

Match Calculation:

In order to calculate the VOCA match, multiply the award amount by 25%. As stated above, match must be from non-federal sources based on the VOCA award amount. Non-profit, nongovernmental victim services programs are not required to make match. For example, if your grant funds total \$150,000 your agency must provide \$37,500 in match ($\$150,000 \times 25\% = \$37,500$).

Contract Period

Subrecipient subawards will be issued annually for every year of the three-year application period.

The majority of the contracts are issued for a 12-month period beginning October 1, and ending September 30 of the following year. The subaward will include the amount of funds awarded for that year. During a multi-year award cycle, a contract is issued annually.

Each grantee must be in compliance with state and federal rules and in good standing with the Victim Services Support Program (VSS) requirements and procedures to receive funding in the second and third years of the cycle. The amount available to designated programs in the second and third year of the cycle will be based on the State and Federal funds available.

For more information on CVAD Contracts with subrecipients, please see [Chapter II. Post-Award Requirements, CVAD Contracts](#).

Non-Supplanting

Federal funds must be used to supplement existing funds for program activities and not replace those funds, which have been appropriated for the same purpose. Potential supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the grant recipient will be required to supply documentation demonstrating that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

For more information on non-supplantation and grant requirements, see [Chapter III. Financial Requirements, Grant Accountability Requirements](#).
