Re: Notice of Data Event

Dear Sir or Madam:

We represent National Western Life Insurance Company (“NWL”) located at 10801 North Mopac Expressway, Building 3, Austin, TX 78759, and are writing to supplement our previous notification to your office of an incident that may affect the security of some personal information relating to Iowa residents. NWL is sharing confidential commercial and financial information. Should there be a request to share this information beyond the Department, we ask that you advise us of same. Disclosure of such information could harm or impair NWL’s private interest in controlling the availability of intrinsically valuable records, including records relating to security and business operations.

Nature of the Data Event

As discussed in NWL’s preliminary notice to your office, on August 15, 2020, NWL discovered a malware incident impacting certain company systems. NWL immediately launched an investigation, with the assistance of third-party investigators, to determine the nature and scope of this event. The investigation determined that certain files were accessed by an unauthorized actor as a result of this event. On or about September 29, 2020 a third-party firm was engaged to programmatically and manually review the files at issue to identify all impacted individuals and the types of data associated with those individuals. A significant number of files required review and that review is ongoing. Concurrently, NWL internally reviewed their databases and on December 21, 2020, preliminarily determined the scope of impacted individuals as a result of this internal review. On January 21, 2021 NWL confirmed that seven thousand six hundred three (7,603) Iowa residents were included in the impacted individuals identified through their preliminary internal review. This notice will be supplemented with additional information upon completion of the manual review.

The types of personal information potentially impacted vary by individual but at this time, include name and the following: life insurance or annuity policy number, Social Security Number and financial account information.

Notice to Iowa Residents

On January 25, 2021, NWL began providing written notice of this incident to potentially affected individuals, which includes seven thousand six hundred three (7,603) Iowa residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon learning of this incident, NWL moved quickly to investigate and respond to this incident, assess the security of its systems, and restore functionality to its environment. As part of its ongoing commitment to the security of information, NWL notified federal law enforcement and is reviewing and enhancing existing policies and procedures to reduce the likelihood of a similar future event.

As an added precaution, NWL will offer impacted Iowa residents access to twelve (12) months of free credit monitoring and identity protection services through CyberScout. NWL will also be providing impacted Iowa residents with guidance on how to better protect against identity theft and fraud. Such guidance includes information on how to place a fraud alert and security freeze on one's credit file, contact details for the national consumer reporting agencies, information on how to obtain a free credit report, reminders to remain vigilant for incidents of identity theft and fraud by reviewing account statements and monitoring free credit reports, and recommendations regarding how to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud.

To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit.
