Notification and Volume Fee Calculation

The annual notification filing fee for a creditor/assignee is \$50.00. In addition, any creditor/assignee that holds credit obligations also **must pay a volume fee**.

Volume fees are calculated based on the average monthly balance owed for the **previous** 12 months of transactions. To determine your average monthly balance, calculate the dollar amount owed to your company by Iowa consumers at the end of each of the **previous** 12 months. Total the average balance for each month and divide by twelve to get the average for the year. Compare the average monthly balance to the volume fee table below to determine the correct volume fee.

Failure to pay the required fees, in full, within thirty (30) days of due date will result in a \$75.00 late fee [Iowa Code §537.6203(4)].

The administrator may bring a civil action against a person for failure to file notification or to pay fees under Iowa Code §537.6113(3).
