RE: City of Marion Group Health Insurance Data Breach

To Whom It May Concern:

We represent the City of Marion, Iowa, and are writing to notify your office of a security breach that has affected the data of Iowa residents. The City of Marion's former group health insurance broker, PDCM Insurance ("PDCM"), suffered a data breach impacting more than 500 current and former City of Marion employees who participated in the group health plan. The City of Marion received notice of this breach from PDCM via a letter dated August 3, 2026.

Information that was accessed during the breach includes personally identifying information like social security numbers, names, and dates-of-birth. PDCM has already notified the Data Protection Division of this breach, which also affected data not owned by the City of Marion. Because the breach occurred within PDCM's systems the details of the incident are best described in their notification letter, dated August 3, 2026, which we incorporate here by reference.

We are working closely with the City of Marion and PDCM to inform affected individuals of this security breach and allow them to take steps to protect themselves from unauthorized use of the disclosed information through the process described in PDCM's letter referenced above.

Very truly yours,

LYNCH DALLAS LEGAL
