Crime Victim Assistance Board

The Attorney General’s Crime Victim Assistance Board was established in Iowa Code section 915.82 in 1989. The Attorney General appoints Board Members to three-year terms of service. The Attorney General appoints a member to serve as Board Chair at the beginning of each state fiscal year. The Board is a governing Board for the programs of the Crime Victim Assistance Division; it gives guidance to the Division Director and adopts Administrative Rules that govern the programs of the Division. The Board also conducts a hearing and renders a decision on any appeal of a Division decision.

Administrative Rules require that the Board meet a minimum of once in each quarter in the state’s fiscal year. Iowa Code section 915.80 requires that Board members include two crime victim survivors, one victim service provider, a licensed social worker or psychologist, two law enforcement officers, a prosecutor, a defense attorney, a medical provider, and an older Iowan. The list of board members below includes the constituency they represent, their County of residence, and the year that their current term ends.

Registrant Watch

Members of the public are offered a means to protect themselves from individuals who have committed an offense requiring registration on the Sex Offender Registry. Individuals can register to receive information via email, phone call and text about the change in location of a specific sex offender or notable changes in appearance of a specific offender. Watches can be set so an individual can be notified if a registered sex offender moves into a city, county, zip code within five miles of a specific address or “area”. 
Crime Victim Compensation Program

The Crime Victim Compensation Program (CVC) pays certain out-of-pocket expenses for victims physically or emotionally injured by crime. All funds for the program come from the Compensation Fund, which consists of fines and penalties paid by convicted criminals. The program does not compensate for damaged or stolen property. Eligible crime victims can be reimbursed for expenses they pay and payments can be made directly to a service provider on behalf of the crime victim for crime-related expenses.

Restitution

Iowa Code provides that restitution shall be order for payments issued by the Crime Victim Compensation Program to the extent that the offender is reasonably able to pay. The program’s Restitution Coordinator will complete the following activities to collect restitution on behalf of the program:

- Review all approved compensation applications to determine if an offender has been identified, and if so:
  - If the criminal case is still pending, the Restitution Coordinator will send a statement of pecuniary damages to the prosecuting attorney; or
  - If the defendant has already been convicted of the crime, but is awaiting sentencing the restitution coordinator will send a statement of pecuniary damages and submit it to the prosecuting attorney; or
  - If the defendant has been sentenced the Restitution Coordinator shall send a statement of pecuniary damages, motion to amend, and restitution order to the prosecuting attorney.
- Monitor each offender’s restitution plan and payment history.
- Initiate collection actions, including but not limited to formal payment agreements, income tax offsets, wage garnishments, and wage assignments if the offender does not comply with the established plan of payment.

Sexual Abuse Examination Payment Program

The Iowa Sexual Abuse Examination Payment Program (SAE) was established in 1979 to pay the cost of a forensic examination of the victim for sexual abuse crimes that occur in Iowa. All funds for the program come from the Compensation Fund, which consists entirely of fines and penalties paid by convicted criminals.

**Iowa Code section 915.41 states:**

The cost of a medical examination for the purpose of gathering evidence and the cost of treatment for the purpose of preventing venereal disease shall be paid from the fund established in section 915.94 [Victim Compensation Fund].

The purpose of a victim’s forensic medical examination after sexual abuse is to collect evidence and ensure the victim’s well being. In Iowa, any person who states they were the victim of a sexual assault can receive the exam whether or not they choose to report the crime. Victims may seek forensic and medical treatment immediately and take additional time to consider whether or not to report to law enforcement and participate in the criminal justice system. Iowa’s policy allowing victims to have a forensic medical exam without a report ensures timely collection of critical evidence that prosecutors and law enforcement will need if the victim decides to make a criminal report later.

The SAE Program pays the cost of the examination regardless of whether or not the victim reports the crime to law enforcement. **A victim is never responsible for payment for a sexual abuse forensic examination or for medications required due to the assault.** Medical providers and facilities submit the bill for the sexual abuse examination directly to the SAE Program. If the victim is billed by a medical provider for the examination, the SAE Program will reimburse that victim. The payment rates for a sexual abuse examination are established in Iowa Administrative Rules.

The program will pay:

- Up to $300 for the examining room and facility.
- Up to $200 for the examiner’s fee (Sexual Abuse Nurse Examiner or Physician).
- All laboratory and medication costs related to the sexual abuse exam and for prevention of sexually transmitted diseases (STD) for the crime victim.
- Follow up appointments for the crime at the same rates as the initial examination.

As of July 1, 2014, medical records or examiner’s notes must be submitted with SAE charges to document the charges that are being paid by the SAE Program. This is a change from previous years, where only an itemized statement, diagnosis codes, itemization of any lab work, names of prescriptions/medications, and patient name and date of birth were required. This change was implemented because the SAE Program currently issues roughly 1.678 million dollars in payments annually to reimburse providers for the cost of an SAE. Medical records are now being requested to verify that the services listed on the bill are in fact being provided. This new procedure has been put in
place as a means of auditing the payments we administer through this fund, with the goal of reducing errors in coding and eliminate the risk for erroneous payments.

The SAE Program also purchases Rape Examination Kits for use in Iowa. The Iowa Crime Laboratory, Iowa Department of Health, and Iowa Coalition Against Sexual Assault design the kits. The kits are stored at and distributed by the Iowa Crime Laboratory.

Historically, the CVAD has contracted with the vendor Tri-Tech Forensics to manufacture the SAE Kits used in Iowa. In Fiscal Year 2014, the State of Iowa created an open bid process, soliciting bids from various vendors to manufacture the SAE Kits. This resulted in a change in vendors and currently Arrowhead Forensics is manufacturing the SAE Kits.

Victim Services Support Program

The Victim Services Support Program (VSS) provides ongoing funds to programs providing services to victims of crime. VSS focuses on (1) effective stewardship of state and federal funds allocated to programs providing services to crime victims and their significant others and (2) providing technical assistance to crime victim programs on program development, fiscal management and services. Due to the various types of funding streams, VSS is able to fund a variety of nonprofit and governmental agencies that provide a cadre of services to crime victims and the local community. Funds support various programs focused on providing direct services, support and advocacy to victims of violent crime, improving or providing investigative services, increasing and improving prosecution, as well as the medical and courts response to violence against women victims.

Fund Sources

Below is a brief summary of the various funding streams administered by the VSS.

**Iowa Domestic Abuse (DA)** and **Iowa Sexual Abuse (SA)** funds are appropriated by the Iowa Legislature and through fines and penalties. 100% of these funds are distributed to programs providing services to domestic abuse and sexual abuse/assault victims through comprehensive local and statewide service programs including victim-based shelters.

**Iowa Compensation Reserve Fund** funds are granted at the discretion of the Attorney General to supplement state appropriations and federal awards. In FY14, these funds supported two (2) statewide trainings: victims advocate certification training and the statewide victims assistance academy. This year funds also provided for the transition of victim service agencies into the new service model. These funds were essential for ensuring victims did not fall through the cracks as some programs expanded into new territory and others closed their doors.

**Federal Family Violence Prevention and Services Act (FV)** funds are awarded to Iowa by the U.S. Department of Health and Human Services, Office of Administration for Children and Families, Office of Community Services. The U.S. Congress appropriates the funds annually. Each state receives a formula grant based on the state’s population. CVAD is allowed to keep 5% of the funds for administration, with the remaining 95% distributed to domestic abuse programs and victim-based shelters. 70% of the funds must be allocated to family violence shelters.

**Federal Sexual Abuse Services Program (SF)** funds are awarded to Iowa by the U.S. Department of Justice, Office on Violence Against Women. The U.S. Congress appropriates the funds annually. Each state receives a base amount and additional funds based on a formula using the states population. CVAD is allowed to keep 5% of the funds for administration. The remaining 95% is distributed to non-profit sexual abuse programs.

**Federal STOP Violence Against Women Act (VW)** funds are awarded to Iowa by the U.S. Department of Justice, Office on Violence Against Women. The U.S. Congress appropriates the funds...
annually. Each state receives a base amount of $600,000 and additional funds based on a formula using the state’s population. CVAD keeps 5% of the funds for administration. The remaining 95% is distributed to programs. Congress requires that 5% be provided to the courts, 25% to law enforcement, 25% to prosecution, 30% to victim services and the remaining 15% at the state administering agency’s discretion within the focus and purpose of the funds.

Federal Victims of Crime Act Assistance (VA) funds are awarded to Iowa by the U.S. Department of Justice, Office for Victims of Crime. The funds come from the federal VOCA Fund, which consists entirely of fines and penalties paid by convicted federal criminals and collected by U.S. Attorney’s Offices. Each state receives a base amount of $500,000, and additional funds based on a formula using the state’s population. CVAD is allowed to keep 5% of the funds for administration, with the remaining 95% distributed to programs that provide direct services to violent crime victims.

**Funding Application and Review Process**

In State Fiscal Year (SFY) 2014, VSS Program conducted a three-year funding application for criminal justice applicants and a one-year application for victim services applicants. Due to the implementation of the new service model, victim service programs are required to apply annually for a three-year period. The funding year is based on the state fiscal year, which is July 1 through June 30 of the following year. A schedule is outlined for the whole application/funding process and approved by the Crime Victim Assistance (CVA) Board. The application process begins with the release of instructions and a technical assistance workshop outlining how to apply for the funding available. Application writing workshops are conducted either in-person or through webinars. The workshop clarifies funding application requirements and the award process. The application process is an approximate seven to eight month process and is outlined below.

The Application/Funding Cycle for State Fiscal Year 2014 will began January 2013 ending June 2013 with the funding beginning July 1, 2013. Below is a table outlining the Application/Funding Cycle as determined by the Division and voted on by the Crime Victim Assistance (CVA) Board. The CVA Board provides oversight of the programs administered in the Division. Contracts are subject to the availability of the funds.

Programs and agencies submit a letter of intent to apply. Funding applications, or Requests for Proposals (RFP), are generally due approximately 4-9 weeks after the application instructions are released. In State Fiscal Year 2014, applicants were required to submit hard copy applications for consideration and review. In State Fiscal Year 2015, applicants will file an online application in the Iowa GEM System (IowaGrants.gov).

A volunteer Application Review Committee (ARC) is convened to formulate recommendations for funding and contract stipulations. Members of the ARC have expertise in victim service delivery or related profession, grant management, and/or public policy. Each application is evaluated for purpose, compliance, completeness, clarity, quality of services, number of victims served, community support, feasibility of proposal, evidence of efficient program, financial management, geographical area and size of the population served.

The CVAD Director receives two-pronged recommendations from the VSS staff and the ARC: which applicant programs and agencies to designate for funds and the amount of funds to be awarded to each designated program. The Director presents the recommendations and any alternate recommendations to the Crime Victim Assistance (CVA) Board. The CVA Board designates the programs and agencies to receive three-years of funding and the amount for the first contract year.
The amounts awarded to victim service programs were based on a formula that was approved by the CVA Board. The award amounts for law enforcement, prosecution or other non-victim service based agencies were determined through a competitive process and non-formula. Subsequent funding in the second and third years of the funding cycle is based on the first-year award and the amount of funds available.

Applicants may appeal the denial of or the amount of an award within 10 working days after the notice of award is mailed. The Board will consider each appeal. A decision rendered by the Crime Victim Assistance Board on appeal constitutes final agency action.

The VSS staff monitors the services, management, and fiscal operations of funded programs for compliance with state and federal regulations as well as quality services. Monitoring and oversight is conducted through on-site monitoring, desk monitoring and technical assistance meetings, conference calls and webinars.

**New Service Model Summary**

SFY2014 was the transition year of implementing the new service model for domestic abuse comprehensive, sexual abuse comprehensive, victim-service based shelters, survivors of homicide programs and other violent crime programs. Below is a summary of the new service model.

In State Fiscal Year 2013, the VSS Program along with collaborative partners such as the Iowa Coalition Against Domestic Violence, Iowa Coalition Against Sexual Assault and other experts in the victim service field created a Strategic Funding and Services plan for victim services. This plan included input not only from the Iowa Coalition Against Domestic Violence (ICADV), Iowa Coalition Against Sexual Assault (IowaCASA), Iowa’s Domestic Violence/Abuse (DA) Directors, Iowa’s Sexual Assault/Abuse (SA) Directors, experts in the field and was presented to the general public through thirteen public meetings held across the state. The goal of the plan was to change how to utilize available funding in a manner that most effectively provides quality services to all crime victims, which includes equitable distribution of the funds across the state.

The proposal/plan is a model to sustain services to crime victims based on the funds available and to be proactive in an effort to ensure that all crime victims continue to receive services. The plan utilizes the housing first model, which is focused on accessing and stabilizing safe housing first. After safe housing is established the victim/survivor is surrounded with support services, advocacy and other assistance identified by the victim and advocate for the victim to remain safe and violent-free. The plan also incorporates the utilizing of different forms of housing such as a 24/7 emergency shelter, safe homes, hotel/motel, financial housing assistance, transitional housing and diverting victims from...
shelter when emergency shelter is not the need. The new model of services diverts victims from entering an emergency shelter when that is not the victims need or when the victim is seeking other services that could assist with safety and self-sufficiency. These services may include other items such as assistance with a protective order, financial housing assistance, transportation, car repairs, training or other items that enhance stabilization, safety and self-sufficiency.

The new service model implemented a regionalization of services that divided Iowa’s services for domestic abuse and sexual abuse victims into six regions as shown in the map below. The VSS Program determined available funds could support one or two programs in each region specific to each of the following types of services: domestic abuse comprehensive (DAC), sexual abuse comprehensive program (SAC), and victim-based shelter programs (SH).

The plan incorporates mobile advocacy in Iowa’s rural areas of the state in order to meet victims where they are in the community instead of forcing victims to come to the program for services. The focus was on increasing the number of advocates providing services to victims as well as equitably distributing the funding equitably so sexual assault victims/survivors also received services and outreach at the same level as domestic violence victims.
During this timeframe, the VSS Program restructured survivors of homicide programming and other violent crime services as well. The majority of Iowa’s homicide investigations are conducted by the Department of Criminal Investigations (DCI) through the Iowa Department of Public Safety. In order to equitably distribute the funds in a way to allow for successful programming, funding for survivors of homicide programs was distributed based on the DCI Zones (see the map below for these service areas). The first year of transition to this new service model occurred in SFY 2014.

Performance Statistics and Information

Type of Victims Served

As stated earlier in the report, SFY2014 was the transition year of implementing the new service model. The year of transition included the expansion of service areas, restructuring of victim service programs, emphasizing new types of services with an effort on implementing the new service model, hiring new staff, training new and seasoned staff on the new service model and best practices and advanced training, certification and technical assistance by the statewide coalitions. This provided programs who did not receive VSS funding the time to responsibly transition the community and their program to the new outlook for victim services in our state. For some programs this meant moving to a different type of service (e.g. domestic abuse services to sexual abuse services or domestic abuse shelter services to domestic abuse services), transitioning to different methods of sheltering or, in some cases, closing their program doors.

During this year of transition, services for Iowans who are victimized needed to be in place and the transition needed to occur as seamlessly as possible. This is why the Iowa Attorney General’s Office supported the transition of programs through additional funds from the crime victim reserve fund. The pie chart below breaks down the number of victims into three categories: domestic abuse (DA), sexual abuse/assault (SA) and other violent crime victims.

COMPARING SFY2013 TO SFY2014

During the year of transition (SFY2014) our domestic abuse and sexual abuse programs served:

▲ 14.6% more domestic abuse victims and
▲ 24.4% more sexual abuse/assault victims compared to SFY2013.
The statistics provided in the pie chart include all type of victim services agencies funded by the VSS Program including Victim Witness Coordinators through local prosecutor offices and survivors of homicide programs. The table below provides a breakdown of the victims served by type of victimization.

In comparing SFY 2013 to SFY 2014 there was an overall increase of approximately 13% in the number of crime victims served (28,050: 31,687). There was an approximate increase of 13% in domestic abuse victims served, 16% in sexual assault victims served and 7% increase in other violent crime victims served.

**Shelter Services and Crisis Calls**

In the new service model, programs sheltered victims in various ways: shelter building, safe homes and hotel/motels. Domestic Abuse Comprehensive (DAC) and Shelter-Based Victim Service (SH) have
been conducting both housing stability and lethality assessments when assisting them in being safe. Assessments are an important tool advocates are utilizing to assist victims in becoming and remaining violence-free as re-establishing self-sufficiency.

Table 2 below provides a breakdown of the number of victims sheltered by type of victimization and the number of nights of safety provided to victims.

Victim service advocates conducted 3,602 housing assessments and was able to divert 4,744 victims from shelter by providing rent and utility assistance to 732 victims, other forms of financial assistance to 1,075 victims and 2,937 by problem solving or providing advocacy. Advocates also assisted victims through 59,846 crisis calls.

**Community Support and Awareness**

Programs rely on community volunteers to help support victims by providing direct services and advocacy throughout Iowa. Some of these direct service activities may include but not be limited to, providing support groups to adults, teens and children, responding to emergencies at hospitals and law enforcement agencies, providing court accompaniment and transporting victims to shelter and appointments. In addition, many community volunteers also donate their time indirectly to support victims and the programs providing those services. Examples of indirect volunteering vary but could include to mowing the shelter lawn, conducting presentations, assisting a victim in moving, organizing donations, conducting fundraising and awareness activities. In SFY2014, programs received assistance from 5,306 Iowans through volunteering their time and services. This was an approximate 49% increase from SFY2013 to SFY2014 (3,550: 5,306). The table below provides a summary, comparing volunteer hours from SFY2013 to SFY2014. There was an overall approximate 45% increase in the volunteer hours donated by dedicated Iowans. See chart on the next page for a breakdown.
VSS funded programs increased outreach to the community through the media and through presentations. VSS funded programs had 1,913 contacts with newspapers, television and radio through articles, interviews and advertisements compared to 1,353 in SFY2013. In addition, VSS-funded programs used technology such as websites, Facebook, twitter, etc., to conduct community outreach and individuals accessed information 41,539 times in this format. VSS-funded programs conducted 4,054 presentations to 98,126 community members in SFY2014.

**Professional Training and Collaborations**

Training and collaborating with other professionals is one way VSS-funded programs improve the response to crime victims. By improving collaborative relationships with other criminal justice and local community agencies victims’ rights are ensured and the victims is empowered. In SFY2014, VSS-funded programs conducted 1,467 training sessions and 29,369 professionals were trained, which was an approximate 44% increase (1,467: 1,034) and an approximate 33% increase in the number of professionals trained (29,369: 22,083). Victim service programs conducted 20,278 meetings with 6,955 local agencies on behalf of crime victims in SFY2014. Through these collaborations, victim service programs received 14,669 victim referrals.
Iowa’s victim service advocates respond 24 hours a day, 7 days a week to victims at hospitals, law enforcement or other safe locations. VSS funds support eight emergency shelters in Iowa’s six regions. Less than 0.45% of the funds administered by the VSS Program were reimbursed for overtime in SFY2014. The victim service programs who paid overtime did so to cover shelter, hotline and emergency response services due to staff training, vacancies, sick leave, vacation and staffing shortages. See Appendix A for a map of the shelters funded through the VSS Program.

Of the overtime funds reimbursed in SFY2014, 69% were from federal funds and 31% were from state funds representing less than 1% of the total funds allocated in SFY14.

Law enforcement overtime was utilized to conduct follow-up investigations, victim safety checks, attend training and conduct arrests on violence against women cases. Law enforcement agencies from Iowa’s rural communities find it isn’t cost effective to fund a full-time law enforcement officer/investigator with Iowa’s STOP Violence Against Women (VW) funds. A requirement of the VW is to fund law enforcement agencies to improve the response to domestic abuse, dating violence, sexual assault and stalking victims.
Bonuses

It is the policy of the Victim Services Support Program that neither federal nor state funds will be used to reimburse bonuses to any VSS-funded program. This includes non-profit and nongovernmental agencies, or programs.

The following pages include tables of reimbursement by expense categories and are further organized by federal and state funds. The different tables are listed below.

Table 4 (see below) provides a breakdown of out-of-state travel for VSS Program staff in SFY2014. The Victim Services Support Program sent a total of two staff to two different mandatory federal conferences required by the funding federal agency. Travel for these events was paid through federal administrative funds. Due to the new service model, the VSS Program sent a staff member to the National Domestic Violence Hotline and Chat Line/Texting Line in Austin, Texas and the Victim Chat Line/Texting Line in Reno, Nevada in order to guide and develop improvements to how the hotline services are utilized; as well as to potentially implement a chat and/or text line for victims.

IowaVINE

Iowa Victim Information and Notification Every Day (IowaVINE) is a free and anonymous telephone service that provides victims of crime with two important services: information and notification. IowaVINE is provided by the Iowa Attorney General’s Crime Victim Assistance Division (CVAD) and the Iowa Department of Justice, initially implemented through a grant awarded by the Bureau of Justice Assistance.

IowaVINE monitors the custody status of offenders in Iowa’s county jails and Iowa Department of Corrections facilities. The information is stored at the VINE Communications Center in Louisville, KY and is always available. The IowaVINE service is available in English, Spanish, Bosnian and Somali. Individuals can access the notification system via telephone at 888-742-8463, at www.vinelink.com, or the VINEMobile smartphone app.

The information is open to anyone in the community with an interest in an offender held in custody. To search for an offender, the first and last name or offender identification number is needed. A secondary search option is the offender’s birthdate or age. Registrants can access the offender’s name, identification number, current custody status, location of offender, facility contact information, scheduled release date (if available), and information about crime victim services in the registrant’s area.

The IowaVINE system began in 2006 with just a few counties. Today, 98 of 99 counties participate along with the Iowa Department of Corrections (9 prisons). Of those 98 counties, 85 county jails and the Iowa Department of Correction have photographs of the offender available online.

Registrants can choose to receive notifications via telephone, text and/or email. If the registrant chooses telephone, a four digit PIN number must be received upon registration. The following are the automated call patterns of the system:

**Normal:** Calls will be made every 30 minutes for 48 hours or until the correct PIN is entered to confirm and stop the notification calls. If an answering machine or a person answers a call and the correct PIN is not entered, then calls will be made every 2 hours for the remainder of the 48-hour period.

**Normal with Delay:** Calls will be made every 30 minutes for 48 hours or until the correct PIN is entered to confirm and stop the notification calls. If an answering machine or a person answers a call and the correct PIN is not entered, then calls will be made every 2 hours for the remainder of the 48-hour period. Transfer notification calls will be delayed for 4 hours from the time the record is received by VINE. Death notification calls will be delayed for 24 hours from the time the record is received by VINE.

**Non-Emergency with Delay:** Calls will be made every 30 minutes between 7:00 am – 10:00 pm for 48 hours or until the call is confirmed. Calls are confirmed and stopped by entering your PIN. If an answering machine or a person answers a call and the correct PIN is not entered, calls will continue every 2 hours for 48 hours between 7:00 am – 10:00 pm.
The IowaVINE program began with the first notifications in December of 2006. The first two counties to go online were Story and Scott. Throughout the remainder of FY2007 and by the end of Calendar Year (CY) 2007, 45 counties were operational. The end of CY2008, 2 counties declined to participate, 20 were not operational but were in development, and 78 were online and operating. The end of CY2009 89 counties including the Department of Corrections were operational and 11 counties agreed to participate and were in development.

CY2010 saw big changes for the IowaVINE. The first big milestone in March was that the VINELink website (www.vinelink.com) was now available for individuals that read Spanish. The second milestone was the addition of offender photos which accompanied the data information for victims on www.vinelink.com. By the end of CY2010, 15 counties had photos online, 78 counties were operational without photos, and 7 were in development to come online as active counties. The IowaVINE system managed over 98,000 offenders at this point.

At the end of CY2011, 97 of the 99 counties were now online with 64 of those counties providing photographs of offenders. A push to have an IowaVINE website link added to local sheriffs’ offices website this year attributed to the increase in registrations. Of the 99 counties, 40 had placed a link on their website offering visitors/victims to register for notifications. This calendar year, the Department of Corrections agreed to come online with photos and that process was implemented and finalized the next calendar year.

For CY2012, the system had received 117,693 total registrations since launch in December of 2006 with over 111,000 offenders managed within the IowaVINE system. Bosnian and Somali languages were implemented for notifications by year end. There were 24 counties that were sending data without photos and 75 counties were online and operational for both data and photos of offenders.

In CY2013, Appriss began switching out the computers running at the local jails to an AWACS machine as the previous software had become obsolete. AWACS is a machine that gives Appriss access to the offender data files without having a stand-alone computer on site. This would eliminate some technical issues that arise from time to time with the current PCs. The process began in FY2013 and continues at the writing of this report.

A very important and large milestone for the system was the launch of the VINEMobile application for smartphones. This app provided easier access to offender information and individuals could register directly from their smartphone for any offender within the system. Within the first month, Iowa led the country in application downloads.

For CY2013, one county had declined to participate at all in IowaVINE and provides manual notifications to all victims within that county; 14 counties send only offender data and 85 counties and the Department of Corrections are operational with both data and photos.

At the end of CY2014, the system is still in the middle of the AWACs upgrade and is providing extraordinary numbers of searches for offenders using the VINEMobile application. At the end of CY2014, there remains one county that has chosen to decline participation and provides manual
notifications to the victims within that county; however, 98 of 99 counties and the Iowa Department of Corrections are online for data. Of those 98 counties, all but 9 have photos of the offenders available for viewing on vineline.com and the VINEMobile App. It is anticipated that three more counties will come online with photos by the end of CY2015.

Fiscal Year (FY) 2007 was the first year of operation for IowaVINE. Total searches for the first year IowaVINE was available was 28,766 with VINE Link at www.vinelink.com representing the majority.

FY2014 was the first full fiscal year of community access to VINEMobile. The application allows search and registration capabilities. There was a significant increase in searches across the system. Table 1 below shows the total searches with the IowaVINE program. With the implementation of VINEMobile, total searches increased by 110% (438,320 – FY13 : 922,371 – FY14). Still total registrations are coming from VINELink.

The next few tables will show a comparison from FY2007 to FY2014 of all searches, registrations and notifications.

Table 3 outlines the total searches by types. Over time, there was an expected gradual increase of individuals accessing information from the IowaVINE system. Surprisingly, popularity of the VINEMobile application caused search numbers to increase by more than 50% following its implementation. Total searches for the seven year period were 2,130,283, or an average of 68,603 searches per year of program existence. Two years after its launch, VINEMobile surpassed all other search engines.

Table 4 below compares all notification events over eight years and the total registrations for each fiscal year. It should be noted that email notifications are the most popular form of notification for registrants. Email notifications make up 60% of the total notifications. Second are text notifications at 22% of total notifications. New registrations increased every year since the system was launched in FY2007. Each month the system averaged 27,449 new registrations. It is anticipated that number will continue to climb annually.

Iowa Crisis Response Team

The Iowa Crisis Response Team (ICRT) responds to communities in the wake of a crime-related disaster. The ICRT provides services to communities in crisis by invitation only and must be invited to the community by an official such as the County Attorney, Sheriff, Police Chief, or Mayor. The response to a community is coordinated with other primary crisis responders, such as the Red Cross, the Iowa Disaster Management Office, and local caregivers.

The goals of the ICRT is to:

- Assist local caregivers in planning and implementing immediate and long-range response after a crime-related disaster.
- Provide emotional and respite support to local caregivers.
- Provide focused training on immediate crisis response and long-term reduction of trauma stress.
- Provide Community Meetings for critical groups in cooperation with local caregivers.

The ICRT is comprised of 165 nationally-trained volunteers. ICRT members have each completed at minimum a 40-hour community crisis response curriculum designed by the National Organization for Victim Assistance (NOVA). ICRT members come from a variety of professions, including social work, psychology, clergy, criminal justice, education, health care, law enforcement, media, mental health, labor, and victim advocacy.

Funds to support the ICRT come from private donations and criminal fines and penalties. Organizations and members of the community often provide a meeting place and meals for the team. ICRT members are reimbursed for travel, room, and board from the Compensation Fund, which is comprised entirely of criminal fines and penalties. Members donate their time and are not reimbursed for salary or income.

A response from the ICRT may be particularly helpful when:

- The crime or trauma affects a community of people closely affiliated with each other.
- There are multiple witnesses to the trauma.
- The victims are of special significance to the community, such as government, community, and media leaders.
- Community members are exposed to carnage or misery.
- The incident attracts significant media attention.
Iowa Identity Theft Passport Program

The Iowa Identity Theft Passport Program was implemented on July 1, 2009. Iowans who are victims of identity theft after that date and who have reported the crime to the appropriate law enforcement agency may submit an application for an Identity Theft Passport.

Iowa law defines an identity theft victim as someone whose “identification information” is stolen with intent to fraudulently use or attempt to use the information to obtain credit, property, or services without the authorization of the victim. An individual’s identification information includes his or her name, address, date of birth, telephone number, driver’s license number, non-operator’s identification number, social security number, place of employment, employee identification number, parent’s legal surname prior to marriage, demand deposit account number, savings or checking account number, or credit card number.

An Identity Theft Passport will not be issued to a person in the case of an identity mistake or because the person has lost documents containing identifying information.

When a victim reports identity theft to law enforcement, he or she can apply for an Identity Theft Passport. The law enforcement agency will submit the completed application, law enforcement verification form, and other necessary documents to the Identity Theft passport Program. Once all necessary information is obtained, eligibility for an Identity Theft Passport will be determined. An application will generally be processed within 30 days of receipt by the program.

A law enforcement agency, creditor, or consumer report agency may consider the Identity Theft Passport as they determine their course of investigation and action. The information may help prevent the victim’s arrest or detention for an offense committed by someone using their identity. The information may also help a creditor who is trying to determine if fraudulent charges were made against the victim’s accounts or if accounts were opened using the victim’s identity. And the Identity Theft Passport may be given to a consumer-reporting agency to show that there is an identity dispute on the victim’s consumer record. The consumer-reporting agency will include the Identity Theft Passport information in future credit reports related to the crime victim.

An identity theft passport is valid for five (5) years from the date of issuance or renewal. A person can apply to renew an Identity Theft Passport within 30 calendar days after its expiration.

A person issued an Identity Theft Passport must notify the Identity Theft passport Program in writing of a change in their name or address. The holder of an Identity Theft Passport must immediately notify the program and the investigating law enforcement agency if the document is lost or stolen.

Iowa Code Chapter 22 requires that an application for an Identity Theft Passport is confidential and is not a public record subject to disclosure. Any person other than the holder of the Identity Theft
Passport will be directed to the victim or the law enforcement agency that was the source of the information.

In FY14, we received 20 applications for Identity Theft Passports. Of those, six were approved and passports were issued. Nine applications were denied. All of those denials were due to the crime not happening in Iowa. Five passports were pending information as FY15 began.

Iowa Protective Order Notification for Domestic Abuse (IPONDA)

The Iowa Protective Order Notification for Domestic Abuse (IPONDA) system is a restricted service for domestic violence petitioners, others deemed to be at-risk by the abuser (respondent), advocates, and officers. IPONDA is NOT open to the public for registration. The information is free and is available 24 hours a day, 365 days a year. IPONDA is available in English and Spanish and has 24-hour Operator Assistance. IPONDA is different from VINE (offender-based system). IPONDA is a service of the Iowa Attorney General’s Crime Victim Assistance Division (CVAD) and the Criminal Justice Information Systems (CJIS) within the Department of Human Rights.

The IPONDA system launched May 1, 2012 after a statewide testing phase that began in June, 2010. The program provides registrants email and phone message confirmation when a civil protective order or criminal no contact order is served or expires.

Individuals can access the notification system via telephone at 888-742-8463 or www.registervpo.com. Since the system is a ‘closed’ system, the registrant will need to provide very specific information including case number, respondent’s full name, and county of issuance.

IPONDA is a PIN first service, to assure the confidentiality of the notification and the petitioner. The actual notification message isn’t made until the PIN is entered. Generic messages will be played and left on voice mail until a live call is picked up and the PIN entered.

**Standard:** These notifications are done after a protective order has been served. A ‘standard’ call is one that will be made every 30 minutes until a notification call is answered. If the call is answered but not confirmed, subsequent calls will be made every 2 hours. Generic notification messages will be left on answering machine, but calls will continue every 2 hours. Notification calls will be made for 24 hours or until the correct PIN code is entered to confirm the call.

**Advanced:** These notifications are done prior to a protective order expiring. An ‘advanced’ call will be made in advance of a scheduled event (e.g. 30 days prior to the expiration of a permanent order). Calls will be made every 30 minutes between the hours of 7 a.m. and 10 p.m. until a notification call is answered. If the call is answered but not confirmed, subsequent calls will be made every 2 hours. Generic notification messages will be left on answering machine, but calls will continue every 2 hours. Notification calls will be made for 24 hours or until the correct PIN code is entered to confirm the call.

The IPONDA program began being tested in calendar year (CY) 2011 and was live by December 31, 2012. The yearlong testing phase was crucial to ensure that notifications were not missed. In CY2011, outreach and training was held across the state, providing information to victim advocates, clerks of
court and law enforcement about the benefits of IPONDA and its use for victim safety. This series of training was then followed up with webinars for those who were not able to attend the training in person. Directly before launch, another series of trainings were held across the state. In coordination with a press conference with the Attorney General, IPONDA was launched the Spring of 2013. Registrants can receive notifications in both English and Spanish and they can receive those via phone call or email.

May 1, 2012 was the launch of IPONDA. The first full fiscal year of operation was FY2013. Due to a resync from the statistical website for IPONDA, the data is limited to total registrations and notifications.

Table 19 below shows the total registrations for IPONDA throughout the life of the program. It should be noted that for FY2011 & FY2012 the program was in a testing phase with limited counties. FY2013 and FY2014 show actual operational numbers. There have been a total of 1,476 registrations since testing in June 2010 and the formal launch in May 2012.

As awareness and outreach efforts increased across the state, the numbers increased for this newly launched notification program. Table 20 below represents the total notifications that have gone out. Total notifications have increased steadily over the comparison period. For the program period, there have been 603 phone notifications and 357 email notifications.
As the system gains momentum across the state, there will be an increase in both registrations and notifications across the program.

**Future Efforts**

An additional feature for both the IowaVINE and IPONDA systems for consideration is the addition of court notifications. These types of notifications will inform the registrant when a hearing is continued, cancelled, or dismissed. This notification will enhance the safety feature of the system by providing a needed notification to the victim. It can also assist victim service professionals, law enforcement, and prosecution by providing notification of changes in the court status.

Another feature slated for enhancement is push notifications with the current VINEMobile application. The VINEMobile app is currently only a registration and information system. All notifications still come through email, text, phone or TTY. An additional feature of notification would allow the registrant to receive a push notification through the phone application, increasing the timeliness of that notification.

As the state becomes more diverse, considering additional languages as an enhancement would be extremely important. As those language options are expanded, outreach to those communities is of great importance. Working with victim services and those community agencies will be vital in achieving the outreach goals set.

Outreach must continue for both programs. Continuous outreach serves as a reminder to all agencies and organizations working with victims of crime in the state, of these programs and the importance for safety within those communities. Outreach may look different as technology expands into areas such as video conferencing, webinars, and virtual training. Outreach efforts must expand to meet the

needs of busy professionals who must hear the information instead of relying on individuals to come to the training.

In particular for IPONDA, outreach efforts are a must. The buy-in of victim service programs and the Clerks of Court offices is crucial for the success of this program. One obstacle is the recording of protective order service in the CJIS system. Policies are inconsistent across counties and the state must move to a uniform statewide system to ensure victim notification is timely. The efforts of this office will include sample policies for each Clerk’s office and dispatch center.
Registrant Watch Program

The Registrant Watch Program is Iowa’s automated notification system for tracking of sex offenders. Registrant Watch was developed with the assistance of the Iowa Division of Criminal Investigation’s Department of Public Safety’s Sex Offender Registry Program and was fully implemented in Fiscal Year 2012.

Registrant Watch assists individuals who register for notification of sex offender updates in their neighborhoods, cities, or states. Registered sex offenders fall along a tier system in the State of Iowa. Tier one offenders must update registration once per year. Tier two offenders must update their status twice per year. Tier three offenders must update their information three times per year.

Registrant Watch provides 24-hour access to sex offender registration information online while having the ability to register for sex offender’s location and other characteristics. The system then provides the registrant with email or phone messages with a change in the location or identification information of that sex offender.

The service contacts individuals via phone and or email. Phone calls can come at any time of the day. If there is no answer or the call goes to an answering machine, the system will call back once for a total of two calls. A short message will be left on the answering machine. This service is confidential and free of charge.

No waiver may be granted from a rule that defines a term. No waiver may be granted from a requirement that is imposed by statute. Any waiver must be consistent with statute.

9.37(2) **Criteria for discretionary waivers.** The board may grant a waiver from a rule, in whole or in part, in response to a request from an applicant or on the board’s own motion, as applied to a specific claim, if the board finds that:

a. The application of the rule to the claim at issue would result in hardship or injustice to the person seeking compensation; and

b. The waiver would be consistent with the public interest or the public interest will be protected by other means substantially equivalent to full compliance with the rule; and

c. The waiver in the specific case would not prejudice the substantial legal rights of any person.

9.37(3) **Board discretion.** The decision about whether the circumstances justify the granting of a waiver shall be made at the sole discretion of the board, upon consideration of all relevant factors.

9.37(4) **Criteria for mandatory waivers.** In response to an applicant’s request, the board shall grant a waiver from a rule, in whole or in part, as applied to the particular circumstances, if the board finds that the application of the rule in that specific case would not, to any extent, advance or serve any of the purposes of the rule.

9.37(5) **Administrative deadlines.** When the rule from which a waiver is sought establishes deadlines, the board shall balance the specific individual circumstances of the applicant with the overall goal of uniform treatment of all applicants.

9.37(6) **Conditions.** The board may condition the granting of a waiver on reasonable conditions to achieve
the objectives of the particular rule in question through alternative means.

9.37(7) Public availability of waiver decisions. A board decision granting or denying a waiver shall be included in the board minutes with reference to the following:

a. The particular case and the rule or portion thereof to which the decision pertains;

c. The scope and operative period of the waiver if one is issued.

Subject to the provisions of Iowa Code section 17A.3(1), the department shall maintain a record of all orders granting and denying waivers under this chapter. All waiver decisions shall be indexed and available to members of the public at the crime victim assistance division office.

9.37(8) Voiding or cancellation. A waiver is void if the material facts upon which the request is based are not true or if material facts have been withheld. The board may at any time cancel a waiver upon notice to the victim by regular mail and an opportunity to be heard, if:

a. The facts as stated in the request are not true or material facts have been withheld, or

b. The applicant has failed to comply with the conditions of the waiver.

9.37(9) Effectiveness of waiver. After the board issues a waiver, a person seeking compensation may rely on the terms of that waiver for the purposes of the particular case for which it was issued. A waiver shall only be effective in the case for which it is issued.

9.37(10) Appeals from waiver decisions. Any request for an appeal from a decision granting or denying a waiver shall be in accordance with the procedures provided in Iowa Code chapter 17A and the board’s rules. An appeal shall be taken within 30 days of the issuance of the waiver decision unless a contrary time is provided by rule or statute.

These rules are intended to implement Iowa Code sections 915.80 through 915.94.
